Brilliant

EVERBEARING STRAWBERRY

SUPER BEARER — 7000 QUARTS PER ACRE

Excels in growing, bearing and taste tempting features. No other everbearing can equal "Brilliant's" amazing production record — 2000 quarts more per acre than any other variety tested! It is justly acclaimed the "World's New Everbearing Champion."

DEC 31 1957

★ **MATCHLESS QUALITY AND FLAVOR**

Department of Agriculture

Never have we seen a Strawberry that charmed us so with its live glistening beauty! "Brilliant" berries are so bright and appetizing you can almost taste them before they reach your lips. The flavor is an outstanding accomplishment — rich and tangy but lacking in acidity.

RIPE BERRIES IN 6 WEEKS

"Brilliant" is the quickest berry maker you ever saw! The plants are so thrifty and vigorous the very first blossoms can be left on to bring you perfect berries just a few weeks after the plants are set out. Give "Brilliant" a trial.

EMLONG NURSERIES, INC.

Stevensville, Michigan

Rhododendron

NEW HARDY HYBRIDS

One of the most elegant native plants. The Rhododendron is always a thing of beauty and if reasonable care is used in growing them, they are perfectly adaptable for use in most sections of the country for landscape work and foundation plantings. Foliage is large, rich, glossy green and stays that way the year around. The hybrid Rhododendrons grow best in shade or semi-shade. Rhododendrons make a most effective display when planted in groups, combining all colors for contrast and interest. They are easy to grow, but do prefer a loamy acid soil — a soil rich in organic matter. Rhododendrons have exquisite blossoms and luxuriant foliage rewarding you with lifetime beauty. These hardy hybrids are perfectly adapted for landscaping, excellent for shady spots.

CATAWBIENSE GRANDIFLORUM. 1394. Deep Lilac color.

CATAWBIENSE ALBUM. 1392. Beautiful glistening white.

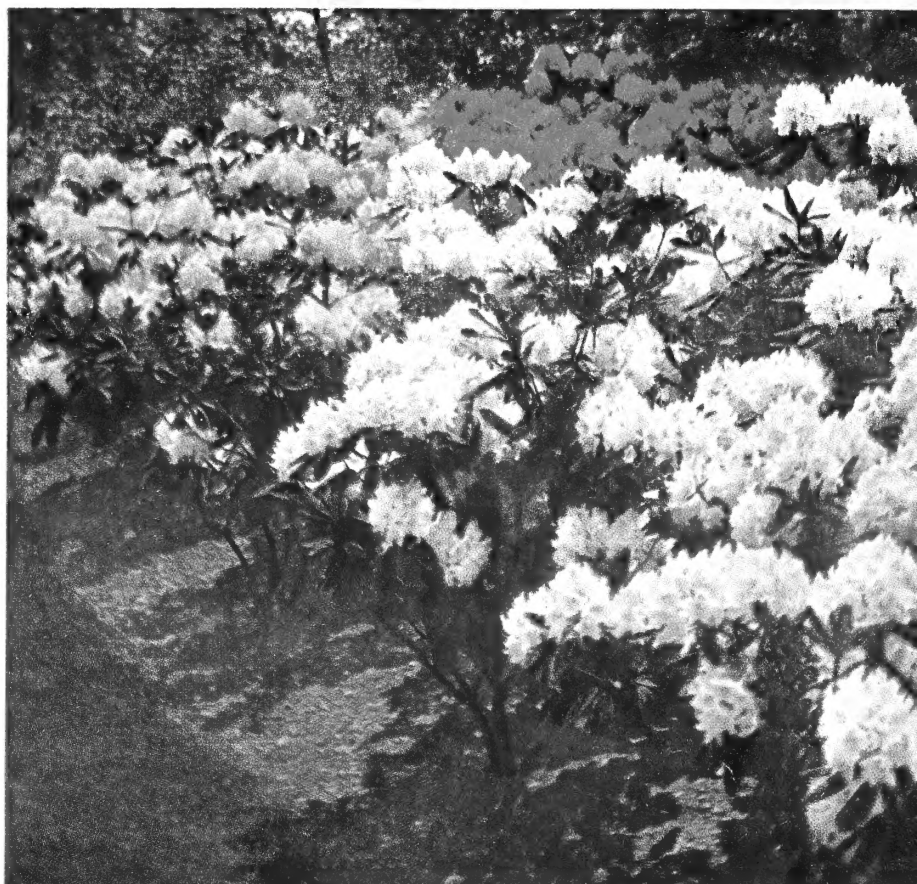

ENGLISH ROSEUM. 1395. Soft rose with tint of lilac.

DR. H. C. DRESSELHUYS. 1393. Deep crimson red.

FRENCH Lilacs

HYBRID COLORFUL — FRAGRANT DOUBLE FLOWERS

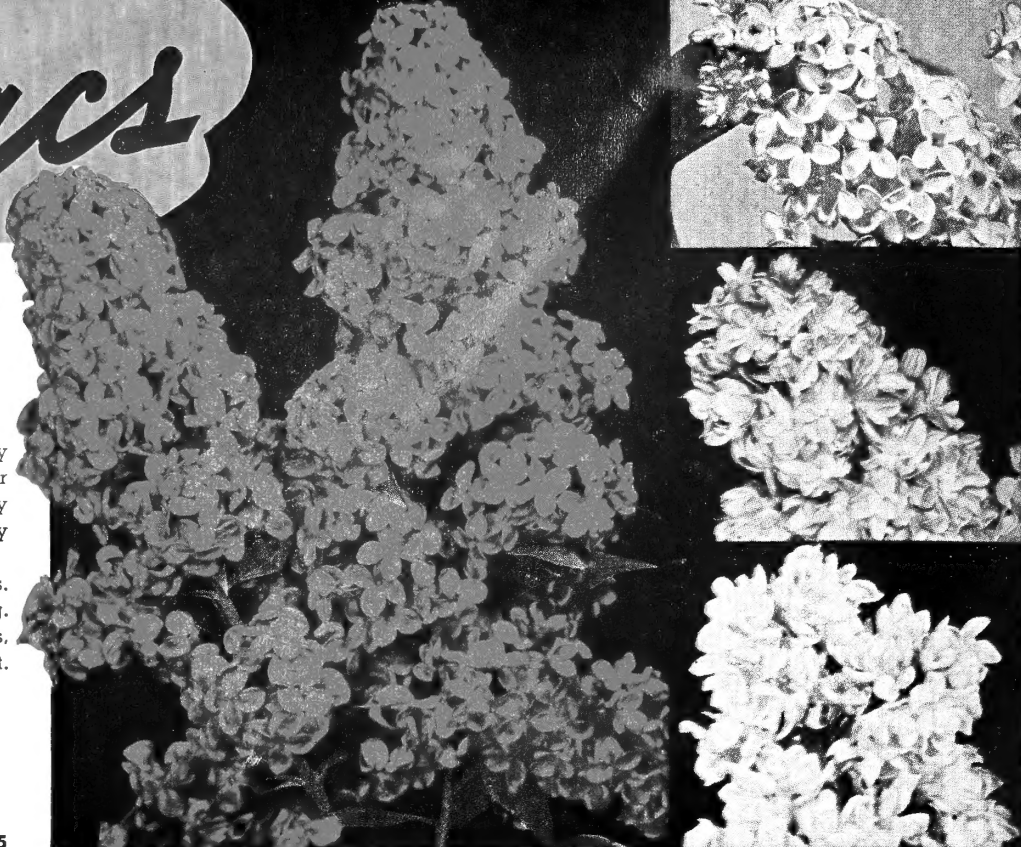

Gorgeous French-type hybrid Lilacs add beauty and distinction to your landscape planting. Bear large flower panicles, 8 to 12 inches long, thickly massed with single and double florets; richly fragrant. The colors are exquisite.

French Lilacs make compact, shapely bushes. Do not sucker. Bear loads of flowers every spring. Desirable for lawn specimens, corner groups, shrub plantings, lilac hedges. Plant 5 feet apart.

CHARLES JOLLY. 1384. Double wine red.
PRESIDENT GREVY. 1380. Soft blue-violet.
MOUNT BLANC. 1386. Snow white.
MARECHAL LANNES. 1382. Rich pink.

American Holly

ILEX OPACA

By far the most famous of the Holly family. A broad-leaf evergreen tree which has been acclimated to northern states. A moderate grower with spreading short branches tapering upwards to a narrow head. Broad, oak-like shiny leaves with spiny teeth. Tree is covered with berries in fall which remain on branches nearly all winter. These berries appear to great advantage at Christmas time. Plant in fertile, well-drained soil, on the acid side. The use of Aluminum Sulphate in planting is recommended. Although the trees will grow 20 to 25 feet tall at maturity, Holly looks best if kept trimmed to a compact size of 8 to 12 feet. The plants increase in beauty year by year. Beautiful at all times, the Holly with its shiny foliage and attractive berries makes one of the most important ornamentals one can have on the home-grounds. Your choice of either **1366, male or 1364, female plants.** Plant one of each for best results.

American Holly→

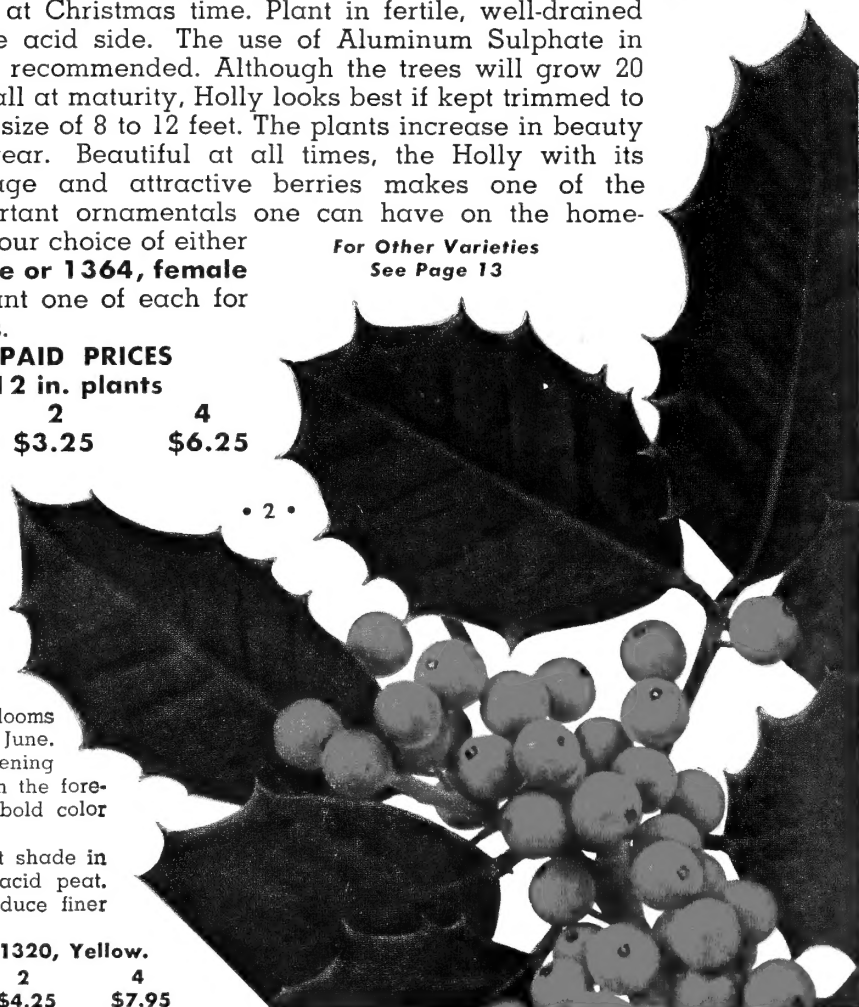

AZALEA MOLLIS

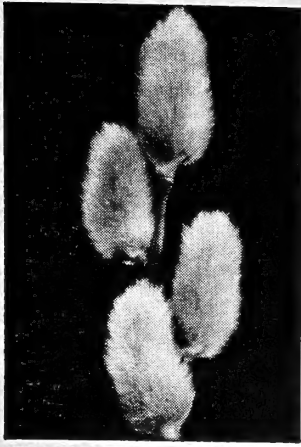

Gorgeously colored aristocrats! Clusters of large, waxen blooms completely cover the 3 to 4 foot, graceful shrub in May and June. This unusual, hardy shrub offers many possibilities for enlivening your garden with sparkling color. Use them for color accents in the foreground of shrub border or foundation planting; in groups for bold color effects.

Can be grown either in full sun or in the shade (prefer light shade in the South). Use soil generously mixed with leaf mold and acid peat. Each fall a top dressing of well rotted stable manure will induce finer blooms. Water freely in dry weather. Do not cultivate.

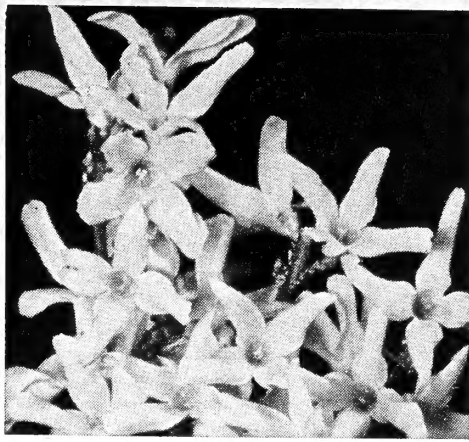

Choice of colors: 1314, Orange; 1316, Red; 1318, Salmon; 1320, Yellow.

FRENCH PUSSY WILLOW

1422. This is the large, cultivated French variety, with large fuzzy grey catkins with a pinkish cast. A welcome sight in early spring. The shrub is tall growing and hardy anywhere. Has attractive long, narrow green leaves. Fine for tall backgrounds.

WHITE SNOWBERRY

1404. Large clusters of attractive, waxy white berries remain on the shrub through most of winter. Pink flowers bloom during summer; lustrous green foliage. Grows 3 to 4 feet tall. Very showy and succeeds everywhere. Does well in shade.

PERSIAN LILAC

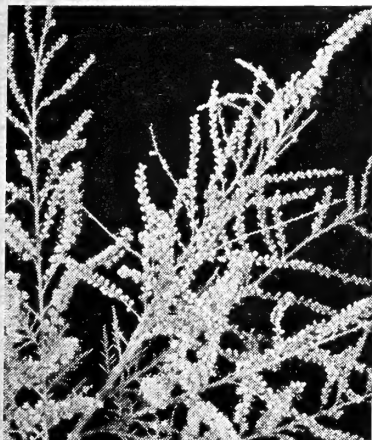

1390. Dwarf variety with slender, arching branches tipped with large loose cluster of fragrant purple flowers. A more profuse bloomer than the common variety. Can be used to advantage in groups, masses or in foreground of taller growing shrubs.

BEAUTY BUSH

1328. Handsome flowering shrub, upright in growth. In June, masses of bell-shaped pink flowers completely cover the graceful, arching branches. Delightful fragrance. Grows 6 to 8 feet tall, in ordinary soil, in sun or partial shade. Has excellent foliage.

TAMARIX RUBRA

1416. Deep pink flower spikes, 12 to 18 inches long, and delicate green foliage produce a charming lacy effect. Blooms all summer; lovely for cutting. Grows 10 to 12 feet tall. Unsurpassed for screen or background. Thrives in sun or partial shade.

Tamarix Rubra

Calycanthus

ZABELI

HONEYSUCKLE

1424. The beautiful and brilliantly colored red Honeysuckle. The reddest flowers of any bush Honeysuckle! Blooms profusely in May, followed by an abundance of bright red berries. A tall growing, compact shrub; excellent for background or screen.

FORSYTHIA SPRING GLORY

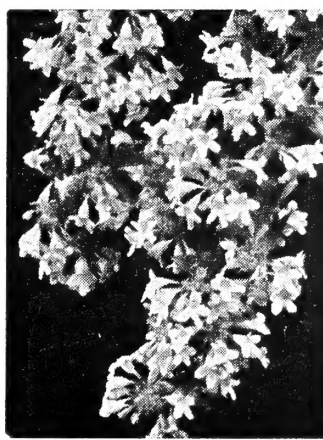

1360. A spectacular new Forsythia which bears large, pale yellow flowers, which completely cover the branches in early spring before leaves appear. Canes grow erect with gracefully drooping tips. Glossy green foliage. Grows 5 to 6 feet tall. Hardy everywhere and thrives in all soils.

CALYCANTHUS (Sweet Shrub)

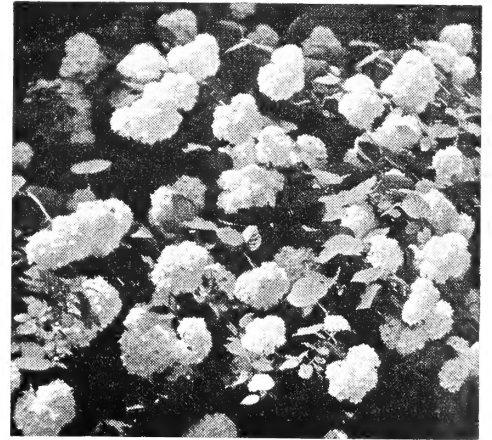

1340. Commonly called Sweet Shrub or the Strawberry Shrub. The handsome, bronze-chocolate flowers are produced in June and are most entrancing because of their spicy fragrance. Odd looking pods develop later which are filled with brown, aromatic seeds. During summer the plant is handsome with clean, glossy, corrugated foliage. Will thrive in sun or shade; grows 4 to 6 feet tall. Fine singly or in groups.

HYDRANGEA A. G.

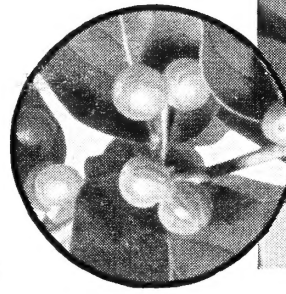

1370. An upright shrub growing to a height of 3 to 4 feet with large, attractive heart-shaped leaves. Huge flower heads of pure white are borne in early summer, lasting until fall. Excellent for border or foundation planting. Perfectly hardy, thrives everywhere; does well in sun or shade. A garden standout!

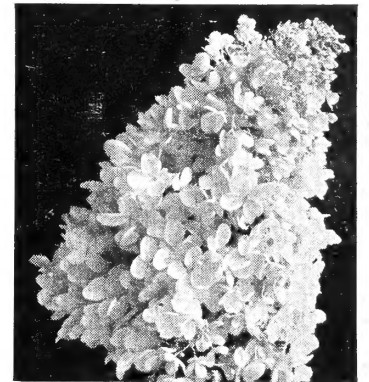

Beauty Bush

Hydrangea A. G.

Zabeli Honeysuckle

HYDRANGEA P. G.

1372. One of the showiest shrubs in cultivation. Immense cone-shaped blooms of white appear in early summer, turning to shades of pink and bronze as the season progresses. Grows 4 to 6 feet tall; blooms from mid-summer until frost. Thrives in sun or shade. Hardy everywhere. Fine for cutting, lasting a long time. A real beauty wherever planted.

Emlong's

FAMOUS FOR
QUALITY NURSERY STOCK
FOR OVER 60 YRS.

IT'S EASY TO ORDER BY MAIL FROM EMLONG'S

Every year more and more people are getting the "shop-by-mail" habit. Why? Well, let's consider the many advantages:

You avoid crowds and waiting for service. You can make your selection leisurely, in the comfort of your own home. Emlong's catalog makes it easy for you to select what you want — every item is fully described and illustrated faithfully.

You save money. You get better plants for less money when you order-by-mail from Emlong's because we grow large quantities and ship direct-to-you. Another advantage of ordering from a large grower like Emlong's is that you get the newer and better varieties first. You have the fun of surprising friends and neighbors with the newest and best in nursery stock.

You profit by our 60 years of horticultural experience — and by the continuous development and testing of varieties, that is done here at Emlong's by our large staff of plant propagators, to insure your getting top quality nursery stock at bargain prices.

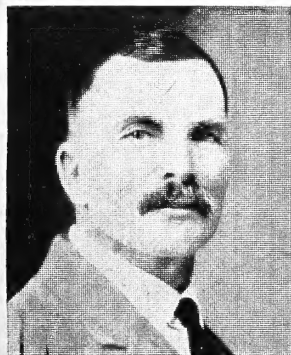

You avoid risk of loss when you order-by-mail from Emlong's, because you are fully protected by our written Guarantee. Join the wise shoppers — order-by-mail now.

10% Discount ... FOR JANUARY CASH ORDERS

All orders postmarked before February 1st, and accompanied by cash in full, will be allowed a 10% discount on all items, except special offers and those marked "No Discount." Your order will be reserved for you and shipped at proper planting time for your locality. Order early and save!

Free Gifts for Early Orders!

Ordering Early Pays You Handsome Dividends

Order before April 1st, 1958 and receive one of these Gifts from Emlong's, for every \$5.00 worth you buy from this catalog. Here's how it works: With every order of \$5.00, you may select any one of the premiums listed.

With every order of \$10.00, you may select any two premiums, alike or different.

With each additional \$5.00, you may select one more premium.

IMPORTANT. Premiums allowed only on orders with full remittance enclosed. No premiums allowed on C.O.D. orders. The premiums you select must be written on the order, or none will be sent; even if you notify us later. If we run short of some items, we reserve the privilege of changing premiums — sending you stock of equal or greater value.

WE PAY POSTAGE ON MOST ITEMS

You will please note that most items listed in our 1957 Spring Catalog are delivered to you postpaid, and are so listed. This saves you money.

There are, however, some items that are too large to ship by parcel post, such as fruit trees and shade trees. There are items such as hedge plants and some varieties and quantities of berry plants that are listed at such a low price for the high quality of stock that we cannot afford to pay the shipping charges. These items are shipped to you transportation charges collect.

In some orders there are trees which must go by express, and also some stock which would ordinarily go by parcel post. In order to avoid making two separate shipments, we send the entire order by express. For this privilege we include extra stock which has a greater value than the amount of the extra transportation charges. When selecting this extra stock for you, we choose items that fit in with the other items on your order.

References: We refer you to the Farmers & Merchants National Bank, Benton Harbor, Michigan; Postmaster and Express Agent at Stevensville, Michigan; Merchants Credit Bureau, Benton Harbor, Michigan; and Dun and Bradstreet.

ORDER BY NAME and CATALOG NUMBER

Items listed in this catalog will be reserved for you as long as the limited supply of them lasts. Many items were sold out early last year! Don't wait until planting time — reserve your needs as soon as you receive this book! We send you a receipt and ship at planting time. First orders will receive first attention. Order early and save!

WE RETURN ALL PAPERS

All papers pertaining to your orders will be returned to you when the order is acknowledged. Do not destroy them. If it becomes necessary to write us AT ANY TIME in regard to your order, be sure to return everything, including correspondence, original order and shipping tags. It is not necessary to return planting instructions.

GET YOUR COMPLETE PLANTING GUIDE...

Free

With every planting order, we send FREE a complete Planting Guide. It tells in a clear simple way how to plant, so that even if you have never done any planting, you can have success. It tells how to prune, water and care for plants over winter; how far apart to plant; when and where to plant, etc.

EMLONG'S GUARANTEE TO YOU

Emlong's guarantee everything to reach you in finest growing condition. If found to be otherwise, make damage claim within 3 days after receipt of stock and we will replace damaged items free.

Emlong's guarantee all stock to grow and live. If anything fails, report such loss to us within 60 days, or not later than July 1st. We replace during the next planting season. Half price replacements from July 1 to September 1. The nursery is not responsible for losses caused by unfavorable weather or improper planting care.

Emlong's guarantee everything to be true to name, if found to be otherwise, we will replace free upon due proof of untruthfulness.

It is mutually agreed that our liability cannot be greater than the purchase price.

Beautiful ORNAMENTAL SHRUBS

RED BARBERRY

1104. This beautiful Barberry, valued for its brilliant red leaves, holds its rich color all summer and fall. Red berries remain through the winter. Makes a fine color contrast among evergreens. As a complete hedge it is gorgeously colorful; also good for group plantings and corners. Plant 18 inches apart in sunny location. Sturdy, well-branched bushes. Rust-proof variety. Grows about 3 ft. high.

Heavy 2-Yr., Field-grown Specimen Plants.

BUDDLEIA

Butterfly Bush or Summer Lilac

No other perennial or shrub gives such a brilliant lasting display of color so soon after planting. These bushes will grow 4 to 5 feet this summer and bloom from mid-summer to late fall. Attracts rare butterflies. Cut off tops each fall. New tops grow each year and bloom on the new wood. Plant 3 to 5 feet apart. No special soil needed. Easy to grow, require little care.

ROYAL RED. 1336. Newest of the brilliant tones. Deep wine-red color; makes striking bouquets.

DUBONNET. 1332. Magnificent 12-inch flower spikes of glowing Dubonnet-red, produced in abundance.

ILE DE FRANCE. 1334. A favorite deep purple. Bushes grow 4 to 5 feet high; a real beauty in full bloom.

CHARMING. 1330. Delicate pink flowers on elegantly long spikes. Makes a bushy growth, about 5 feet tall.

2-Yr., No. 1 Field Grown Plants
\$1.00 each; 2 for \$1.95; 4 for \$3.65, postpaid.

ABELIA GRANDIFLORA

1302. A beautiful shrub that remains attractive most of the year. The plant bears a continuous supply of pink and white flowers from early summer until frost. Foliage is glossy, looking as though it had been waxed. Leaves are practically evergreen. Grows to about 5 feet at maturity. Recommended for borders, in groups or alone. Can be used as a hedge in sunny or partly shaded areas. In cold climates, we suggest planting in a protected area. A grand, showy shrub that will provide a spot of color wherever it is planted.

Postpaid	Each	2	4
18-24 in.	\$1.50	\$2.85	\$5.60

Abelia Grandiflora

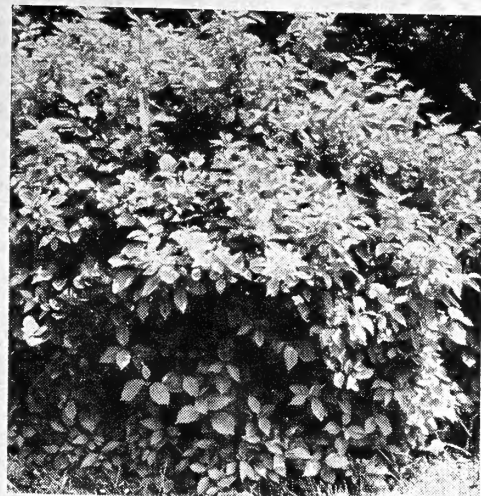

SCARLET SPIREA ANTHONY WATERER

1406. A remarkable dwarf growing, compact, upright and very dense shrub. Makes a neat, rounded bush 2 to 3 feet tall. Bright crimson flowers are borne in flat clusters about three inches across which completely cover the plant. Will bloom until frost if flower heads are cut as they fade. Makes a low bushy hedge that requires no trimming. Also popular for use in front of higher shrubs, in foundation or border plantings.

Postpaid	Each	2	4
12 to 18 in.....	\$1.00	\$1.90	\$3.60

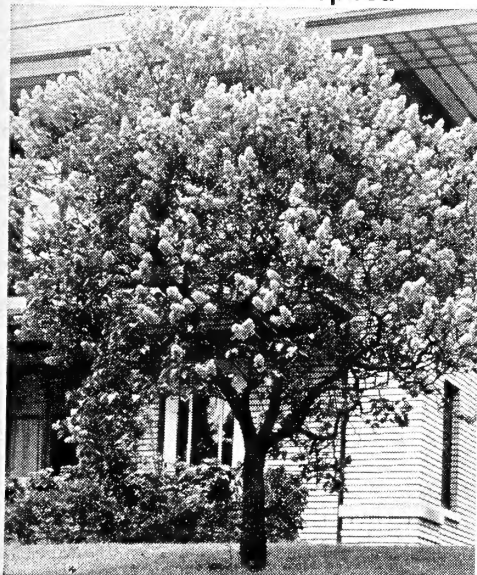

Emlong's Hardy Flowering Shrubs

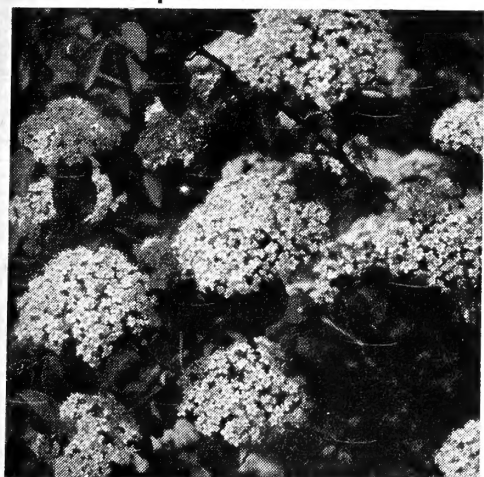

Golden Mock Orange

Dwarf Crimson Spirea

Japanese Tree Lilac

Wayfaring Tree

GOLDEN MOCK ORANGE (Golden Syringa)

1414. One of the "showiest" of all flowering shrubs, because of its all-season golden yellow foliage. The flowers are intensely white and have a fragrance which is delightful and delicate. Grows to a height of 4 to 5 feet, and is not fussy about location — doing well even in smoky and dusty places. We highly recommend this colorful shrub for every garden. There just isn't anything like it. 12 to 15 in. plants, \$1.50 each; 2 for \$2.85, postpaid.

COTONEASTER DIVARICATA

1344. A showy ornamental shrub that is rapidly growing in popularity. Medium tall; spreading habit. Gracefully drooping branches bear clusters of small pink flowers in June, followed by bright red berries. Bright green waxy foliage turns red in fall.

15 to 18 in.....	1.00	1.90	3.60

WHITE SUPREME JAPANESE TREE LILAC

1387. The tree form of the beautiful Lilac. Trees grow upright and are hardy for they come from a very cold climate. In June and July large, long panicles of fragrant ivory-white flowers appear making a very attractive show. Keep lower branches cut off for a well developed trunk. Tree grows 12 to 14 feet tall at maturity. The tree is small, bushy and oval in shape, is well suited for use in shrub borders, enjoys a minimum of care and thrives under average garden conditions. A very beautiful and showy ornamental tree.

Lovely CAPE MYRTLE

The plant which is so much a part of southern beauty is now available in hardy form for those of us in northern climates. It dies down to the ground each winter in the north, but throws up new shoots each spring and flowers in the summer. Has attractive flowers with fringed petals; borne in panicles. The beautiful large flower heads bloom over a long period in the hot summer months, when flowers are so welcome. Has attractive glossy, deep green foliage. If you want a real thrill in plants, we recommend this one. Will grow in any good garden soil; prefers full sun. Plant 3 feet apart for borders. Choice of colors: **1352 Watermelon Red, 1348 Coral Pink, 1350 Royal Purple.** 18-24 in. 2-yr. fieldgrown bushes, \$1.00 each; 2 for \$1.95; 4 for \$3.75, postpaid.

Sturdy **EVERGREENS**

Especially Suited for Windbreaks, Soil Erosion & Xmas Trees

COLORADO BLUE SPRUCE

1020. One of the showiest evergreens. Color ranges from deep green to silvery blue-green foliage, depending on the season. Tall growing and perfectly shaped. Grown from select Blue Spruce seed, but trees do not show blue to any extent until 2 to 3 feet tall.

← SCOTCH PINE

1052. A decorative tree densely covered with dense blue-green needles of medium length. The pyramid form gives great character to the tree. Rapid in growth, very hardy. Widely planted for windbreaks, screens and hedges.

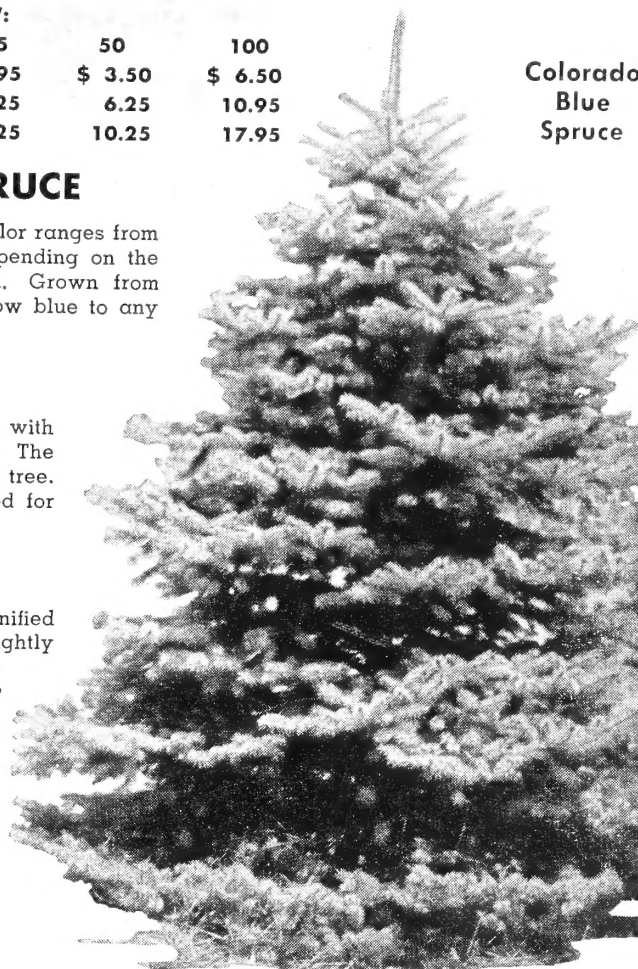

AUSTRIAN PINE

1048. Here is one of the most dignified evergreen trees. Solid in shape due to tightly leaved branches of very dark green. Needles are straight and slender, 4 to 5 inches long.

Colorado
Blue
Spruce

WHITE SPRUCE

1032. Handsome, fast growing tree. Similar to Norway Spruce. Compact, bluish-green needles densely cover the upright branches. Habit of growth is symmetrical, of typical Christmas tree form. Hardy and drought resistant.

JAPANESE RED PINE

1034. Fine ornamental tree, desirable for planting in groups, and for hedges, windbreaks and shelterbelts. Somewhat spreading in form with rounded head. Has long needles of bluish-green color. Grows rapidly; height at maturity about 90 feet.

JAPANESE BLACK PINE

1036. A graceful, wide spreading tree with broad, irregular head. Light green needles, 4½ in., long. Very hardy. Widely planted for windbreaks, etc. It is especially valuable for use in exposed areas along the seashore; not harmed by salt spray.

EVERGREENS for Lasting Beauty

All Evergreens On This Page Are Field-grown Transplants

Majestic Junipers

SPREADING PFITZER JUNIPER →

1012. One of the best evergreens for use wherever a low-growing tree is desirable. Thrives anywhere. Valuable in foundation plantings beneath windows and in front of taller evergreens. It is one of the few evergreens that will withstand considerable shade. The beautiful, blue-green feathery foliage is attractive the year around. May be trimmed as desired. If left untrimmed, the low, spreading branches will reach a spread of 6 to 8 feet.

All Evergreens On This Page Are Field-grown Transplants

AMERICAN ARBOR-VITAE

1026. One of the most popular of all evergreens. Tall, upright, pyramidal form with rich dark green foliage which remains even throughout the winter. Rapid growing. Extensively planted in foundation work, as hedges, screens and shelter for more tender growing plants. Grows 15 feet tall, but can be kept to 4 or 5 feet by shearing.

Postpaid	Each	2	4
12-18 in.	\$1.95	\$3.75	\$ 6.95
18-24 in.	2.95	5.75	10.95

GOLDEN ARBOR-VITAE

1054. (Biota Aurea Nana.) Short, fan-shaped branchlets of gleaming golden green, arranged vertically. Grows 3 to 4 feet tall at maturity. Trim as desired. Grows in the shape of a high oval, broad at the base; makes an excellent foundation plant. The golden green foliage contrasts handsomely with other evergreens and highlights the entire landscape. Adaptable to any location.

Postpaid	Each	2	4
12-15 in.	\$2.95	\$5.75	\$10.95

PYRAMIDAL ARBOR-VITAE

1040. A favorite for entrances. Narrow, shapely, pyramidal form with green, fanlike foliage. It is one of our leading and most widely planted evergreens. Grows rapidly and is easily trimmed. Most compact and erect of the entire Arbor-Vitae family with a graceful dignity. Its healthy rich green color, which remains throughout the year, and narrow columnar growth make it valuable for many purposes of landscape design.

Postpaid	Each	2	4
12-18 in.	\$2.25	\$4.25	\$ 7.95
18-24 in.	3.25	6.25	11.95

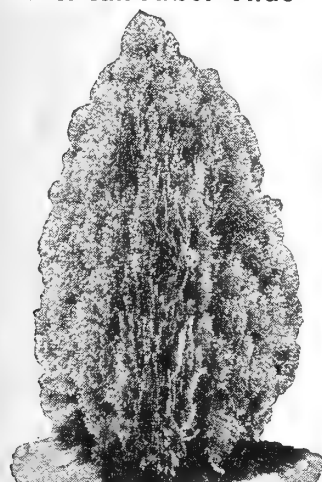

GLOBE ARBOR-VITAE

1030. Naturally globe-shaped, shrubby type with broad fan-shaped leaflets. Handsome shades of green. Grows 3 feet tall; light pruning keeps it shapely. These beautiful, dwarf globe forms are frequently used as entrance markers and for doorway, border and corner plantings. Because of their shape, they are extensively planted in many parts of the lawn and garden. Very hardy.

HARDY HEDGE PLANTS

① HARDY PRIVET (Amoor River North)

1110. Easiest to grow of all Privets. Very hardy; thrives under favorable planting conditions. Makes an attractive hedge in all seasons with its glossy green leaves and clusters of white flowers, followed by berries. Trim to desired height and shape any time during summer. Leave untrimmed for foundation and screen plantings. Set bushes 9 to 12 inches apart. For a wider hedge, plant 2 rows, alternating the plants. Well branched, well rooted bushes.

ROSA MULTIFLORA—A Living Fence

1112. Now you can have a natural living fence that will last for years, without expensive upkeep. **Rosa Multiflora** is the amazing new hedge material that garden and farm magazines have written so much about recently. The plants are very hardy; grow rapidly, and in just a few years will make a hedge dense enough to keep all types of animals in their place.

Eliminate expensive repair bills and maintenance costs by planting **Rosa Multiflora** wherever a fence is needed. Easy to grow; thrives under most soils and conditions of weather. Requires no training, pruning or clipping. Grows to a height of 8 feet, blooms each year and is the most practical, decorative planting material that can be used. Plants should be set 12 inches apart. A living fence adds beauty and value to your property. Plant **Rosa Multiflora** this spring.

Broad-Leaf EVERGREENS

WILL BEAUTIFY YOUR YARD THE YEAR AROUND!

Ilex Rotundifolia

EUONYMUS RADICANS

1440. An upright, broad spreading shrub with rich bright green foliage that remains on the plant year round. Makes a shapely bush 4 to 5 feet tall. Its growth habit and easy culture make this an outstanding shrub for individual specimen planting. A plant that will blend well with your established evergreen plantings. The rigid branches are a perfect sight when carrying the red berries which hang on late in the season. Thrives in sun or partial shade. Be sure to plant one or more in your garden for a brilliant autumn display. **Heavy 12-15 in. plants, \$1.75 each; 2 for \$3.40; 4 for \$6.65, postpaid.**

Hollies

ILEX ROTUNDIFOLIA

1430. A Holly of unsurpassing beauty; ideally suited for foundation planting and low hedges. Of globular form and compact growth; very hardy, succeeds in a wide range of soils. Has small, rounded, bright green glossy leaves. Attractive in all seasons of the year, it is especially so at Christmas when the berries are highly colored and at their best. **6-8 in. plants, 75c each; 2 for \$1.40; 5 for \$3.25; 10 for \$6.25; 25 for \$14.50, postpaid.**

ILEX CONVEXA

1431. One of the choicest of broad-leaf evergreens. Plant is very bushy; grows about 4 feet tall. Shiny, dark green, Boxwood-like foliage is somewhat convex. Blends beautifully with other evergreens; is also an excellent accent plant. Well suited for low hedges. Plant 18 inches apart, in full sun or light shade. **6-8 in. plants, 75c each; 2 for \$1.40; 5 for \$3.25; 10 for \$6.25; 25 for \$14.50, postpaid.**

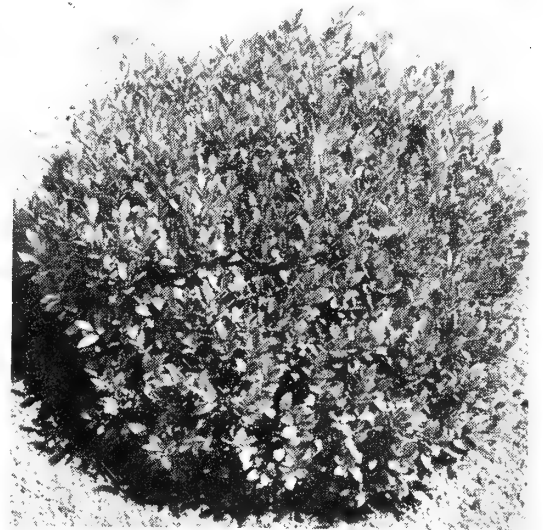

EUONYMUS PATENS

1438. Attractive and easiest grown evergreen shrub. Compact and shapely; grows about 6 feet tall. Rich green foliage remains on the plant nearly throughout winter; is quickly replaced by shiny new foliage in spring. In autumn, numerous Bittersweet orange berries add to its charm. Splendid for hedge or specimen planting. Succeeds in shade. **Heavy 15-18 in. plants, \$1.45 each; 2 for \$2.75; 4 for \$5.25, postpaid.**

Ilex Convexa

BOXWOOD

WELLERI. 1436. The hardiest of all Boxwood in cultivation. Whether in the small home-grounds or in a large estate, Boxwood gives an appearance of age and dignity to its surroundings. Welleri has large dark green leaves and is fast growing. Makes a dense hedge quickly, and can be trimmed to any desired height and shape. Will thrive anywhere; in poor soils, in sun or shade or under tall trees and sunless corners. Perfect for low hedges and edging. We cannot recommend this grand plant to you too highly. **Heavy 6-8 in. plants, \$1.50 each; 2 for \$2.90; 4 for \$5.50, postpaid.**

Ornamental Flowering Peaches

RED LEAF PEACH

1278. Bright red foliage appears early in the spring, changing gradually to deep maroon towards fall. Fragrant, deep-rose blossoms contrast beautifully with the colorful foliage. This sensational tree produces a full crop of small, perfectly round edible Peaches, about 1½ inches in diameter. The Peaches are especially fine for pickling — flesh is white and has a delicious, sweet flavor. Fruits have an over-all red color, lightly spotted. Ripen quite late. Try a planting this spring.

RED FLOWERING PEACH

1276. One of the most beautiful ornamental trees. Symmetrical spreading tree, growing to a height of about 20 feet. Thousands of miniature rose-like blooms appear in May, completely covering the tree, before the glossy green leaves appear. A tree in full bloom presents a vision of loveliness against the new green of an early spring lawn. Trees are rapid growing. Ideal as a specimen plant and fine for group plantings, for shrub border, driveways and along property lines.

Boston Ivy

BOSTON IVY

(*Ampelopsis Veitchi*)

1510. The best known and most popular of climbing plants. Very attractive, 3-lobed glossy green leaves. A rapid grower after established; clings to any surface. Will thrive in sunny or shady locations. Foliage turns scarlet in the fall. Valuable for wall coverings, tree trunks and posts. **2-yr. Select Vines, \$1.00 each; 2 for \$1.95; 4 for \$3.75, postpaid.**

Wisteria Vine

Everblooming **GOLDFLAME** Honeysuckle

1516. Beautiful flower clusters as large as your hand, cover the vines from June until frost. Curved petals and long stamens; brilliant rose-red outside and gold inside. Lovely for cutting. May be trimmed as vine, shrub or low hedge. Blooms profusely year after year; requires little care. **2-yr., field-grown plants, \$1.00 each; 2 for \$1.95; 4 for \$3.75, postpaid.**

HALL'S Fragrant Honeysuckle

1518. Dainty yellow and white blossoms intermingled, produce a beautiful effect all summer. One of the most fragrant of all Honeysuckles. Vines are hardy, vigorous growers; ideal for covering unsightly buildings, screening out undesirable views and softening harsh fence lines. **2-yr., field-grown plants, 75c each; 2 for \$1.45; 4 for \$2.75, postpaid.**

ENGLISH IVY (Green All Winter)

1512. A lovely vine as well as a splendid ground cover. Leaves are small and grow close together, making a solid mass of dense, rich, glossy evergreen foliage; remains green all winter. Has many uses, from covering walls, rocks, tree trunks and trellises to carpeting bare spots in shady places, edging beds and borders. Plant 2 to 3 feet apart for mass effect. **2-yr. Pot Plants, 60c each; 5 for \$2.75; 10 for \$4.75; 25 for \$9.95; 50 for \$18.95, postpaid.**

EVERGREEN BITTERSWEET

1514. (*Euonymus Radicans Vegetus*.) Strong growing variety. Dark green firm leaves last through winter and form an excellent background. Bears clusters of large, red Bittersweet berries; make good winter bouquets when dried. Will climb either brick or wood. Adaptable as a shrub or ground cover. Valuable for shady places where a delicate evergreen is needed. **2-yr. Select Vines, \$1.25 each; 2 for \$2.40; 4 for \$4.50, postpaid.**

ORCHID WISTERIA VINE

1524. Hundreds of gracefully pendulent clusters, 12 inches and more in length, cover the vine during May and June. These hardy Wisteria will lend a charming touch to your garden when grown on fence, trellis or garden wall. The pea-like, orchid-colored florets are borne in dense, compact clusters and make a gorgeous display in full bloom. A hardy, vigorous growing vine that will last for years. Well adapted for arbor plantings. **2-yr. field-grown vines, \$1.45 each; 2 for \$2.75; 4 for \$4.95, postpaid.**

SILVER LACE VINE

1520. Beautiful, fast growing vine. Myriads of snow-white clusters of dainty blossoms cover the vine all summer. Will grow 15 to 20 feet the first year; clings to any support. Prefers a sunny location. Foliage is perfectly clean; insects do not bother it. Valuable for covering unsightly buildings, barns, walls. **2-yr. Select Vines, \$1.00 each; 2 for \$1.95; 4 for \$3.75, postpaid.**

Gold Flame Honeysuckle

Evergreen Bittersweet

Silver Lace Vine

Evergreen **GROUND COVERS** FINE FOR SHADE

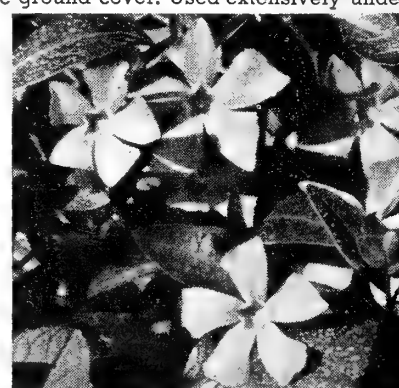

PACHYSANDRA TERMINALIS

1528. A trailing plant with beautiful waxy green leaves that stay green all winter. One of the most valuable plants for use in densely shaded areas where grass will not grow, and the only plant that will thrive under pine trees. Plants make a dense growth and spread out rapidly and should be set 1 to 2 feet apart. Makes a beautiful low hedge for bordering walks and drives, and a splendid covering for steep banks, ravines and terraces.

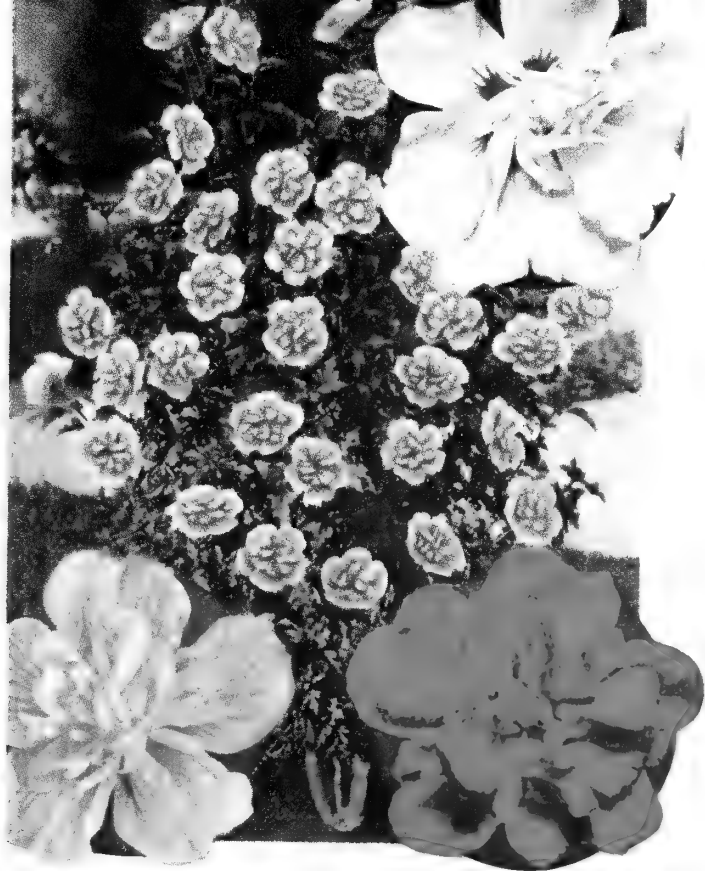

VINCA MINOR-PERIWINKLE

1526. Attractive, glossy green leaves and lovely violet-blue flowers make a very showy and effective ground cover. Used extensively under shrubs and trees and on graves; in fact, in any shaded areas where other plants will not grow. A trailing plant that spreads rapidly and makes a dense, compact growth. Plants are hardy and trouble free; will thrive in sun or shade. Suitable for edgings to shrub borders, along wooded paths, etc.

ALTHEA (ROSE OF SHARON)

A very pretty, tall growing shrub with large, double rosette flowers and fancy green leaves. Blooms from late summer through fall, when other shrubs have finished blooming. Flowers are charmingly colored, brilliant and gay and contrast beautifully with the dark green foliage. Popular for tall background in the border, and well suited for screens or single specimens. Grows 6 to 8 feet tall; erect and well-shaped. An old-time favorite, but worthy of a place in every modern garden.

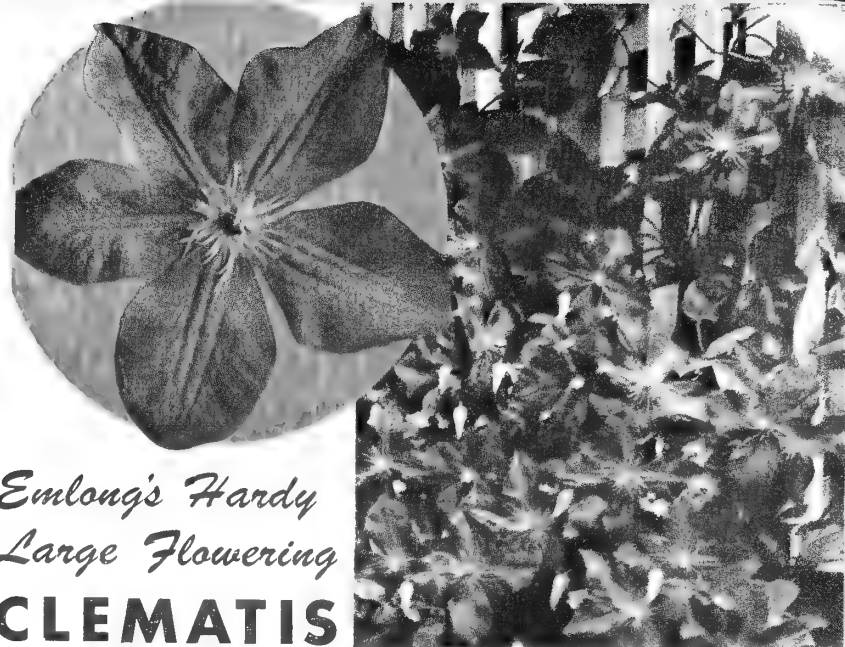

Your choice of colors: 1306, Pink; 1308 Purple; 1310, Red; 1312, White. 18-24 in. 2-yr. plants, 90c each; 2 for \$1.70; 4 for \$3.25, postpaid.

SMOKE TREE

(PURPLE FRINGE) ↓

1398. Huge clusters of misty blooms make this shrub look like a "puff of smoke" when in full bloom. Flowers are long-lasting and make a beautiful display during late summer. Ours is the hardy variety that can be grown in the north. Grows 6 to 8 feet tall and 6 feet wide. Marvelous for back-ground planting and as individual specimens. A most unusual shrub.

GARDENIA VEITCHI

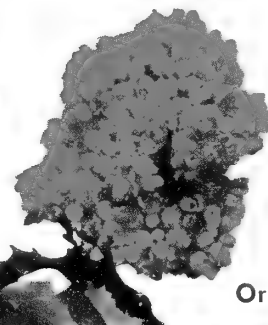

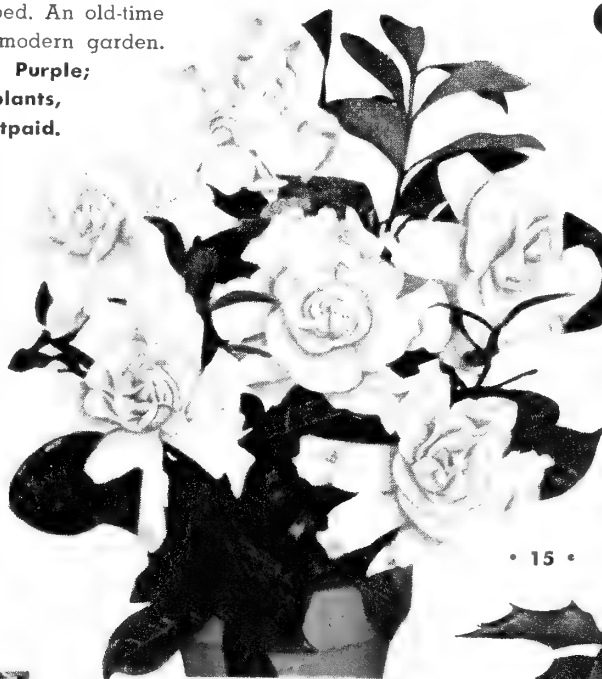

← (CAPE JASMINE)

2070. Enjoy this exquisite flower indoors or out. It is an excellent plant for terrace or sunroom, bringing a touch of exotic beauty to any setting. The flowers are large, creamy-white and of waxy texture; surrounded by luxuriant foliage of heavy substance and rich dark green color. Even when not in bloom, the attractive evergreen foliage makes a very decorative plant. Here is one of the most popular and fashionable flowers

— unequalled for its rich perfume; unexcelled for corsages.

A plant you will enjoy the year around.

Oregon Grape-Holly

OREGON → GRAPE-HOLLY

1432. The Holly Leaved Evergreen Shrub. (Mahonia Aquifolium). Has large spiny, metallic looking leaves which turn bronzy-red in fall. Large, spike-like clusters of attractive yellow flowers are borne in spring, followed by purple-black fruit in June and July. Ultimate height about 2½ to 3 feet, depending upon location. Does exceptionally well in shaded areas. Hardy. The ornamental foliage is excellent for cutting.

HUGE Football MUMS

The great improvement in large blooming Mum varieties enables us to offer garden varieties that compare equally in size with green-house varieties and the range of color is much wider. These world famous varieties that we offer produce huge exhibition blooms and should be disbudded to one bloom per stem, having several stems on each plant.

These varieties are carefully selected for their beautiful colors; large size flowers, and early blooming habits. The blooms are huge, of fine texture and will provide beautiful long-stemmed bouquets throughout the fall months. Flowers are up to 5 inches across, not the small 2-inch flowers you are accustomed to seeing on ordinary Mum varieties.

ABLAZE. 2273. Huge cactus-like blooms of deep red.

APPLE BLOSSOM. 2274. Incurved blooms of shell-pink.

BALCOMBE YELLOW. 2276. Bright yellow incurving blooms.

CRIMSON MAGIC. 2278. Reflexing blooms of deep crimson.

DISPLAY. 2280. Large blooms of bright scarlet bronze.

DOREEN MONTE. 2282. Double incurving blooms of rose pink.

NEW DAWN. 2284. Large reflexing blooms of shell pink.

PRESENT. 2286. Huge fluffy blooms of pure white.

ROMANCE. 2288. Double blooms of pink; salmon shadings.

SALAMANDER. 2290. Large bright red full blooms.

95c each; 2 for \$1.85; 4 for \$3.60, postpaid.

Apple Blossom Mum

MAGIC MUMS

DWARF GROWING — CUSHION TYPE

Cushion Mums are easy to grow and require little care. They will bring to your garden a wealth of colorful beauty year after year. Try a planting this spring; we know you will be delighted with them.

BROWNIE. 2236. Low growing bushes are covered with blooms of orange, buff and bronze. Blooms early October.

CAMEO. 2234. New. Fully double 2-inch blooms of true pink. Bushes grow 15 inches tall and bloom late September.

FROSTY. 2232. New white pompon cushion. Blush white buds mature to 2-inch pure white pompons when fully open. Blooms mid-September. Ideal for borders.

LIPSTICK. 2224. Large blooms of bright red. Sturdy plants of medium height with strong stems. Blooms late September.

SMILES. 2238. New. Brilliant yellow button pompons. Vigorous 12 to 15 inch bushes. Blooms early October.

65c each; 3 for \$1.80; 6 for \$3.50, postpaid.

Emlong's Hardy CARNATIONS

CARNATION BARGAIN 2121X

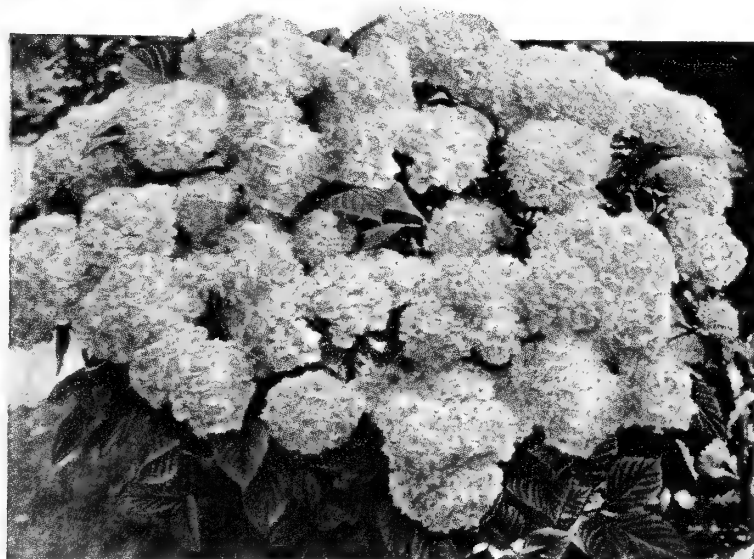

10 BEAUTIFUL
CARNATION
PLANTS, 2 each
of the five varie-
ties listed for only

\$2.95
Postpaid
No Discount

The lovely perennial Carnation Grenadin comes in 5 beautiful colors:

- 2110. **Golden Sun**, glistening golden yellow.
- 2112. **Ruby**, deep maroon red.
- 2114. **Purity**, pure white.
- 2116. **Scarlet Prince**, bright scarlet crimson.
- 2118. **Triumph**, lovely deep pink.

For a riot of color and an abundance of flowers all summer and at intervals thereafter, plant just a few plants in solid beds, borders or in groups. Flowers come single, semi-double, and double on the same plant at different times of the season. These hardy Carnations are fast becoming the most popular and useful flower in the garden because they are lovely in the garden and fine for cutting. Grow 18 to 20 inches tall. The flowers are delightfully fragrant. Carnations grow in ordinary light, well-drained soil. Plant 12 inches apart in early spring. Plants are hardy, but should be protected lightly during the winter to prevent alternate freezing and thawing. **45c each; 2 for 80c; 5 for \$1.75, postpaid.**

Blue Hydrangea

BLUE HYDRANGEA

(Nikko) 1374. This is the new hardy strain of Blue Hydrangea, which has immense flower heads 6-12 inches across lasting for many weeks. In ordinary soil the flowers are pink, but in an acid soil they are blue. A deeper blue color can be maintained if a small amount of aluminum Sulphate is applied once or twice during the growing season. Blue Hydrangea grows best in partial shade, growing 3-4 feet tall making a well rounded shrub just as wide. Where winter temperature goes below zero, protection should be given by mounding up 10 to 12 inches of soil around the plant before severe freezing weather. Our plants are well rooted **2-yr. field-grown plants** (not greenhouse grown). **\$1.75 each; 2 for \$3.25, postpaid.**

MT. SHASTA DAISY ↑

2034. Beautiful new double-flowering Daisy that will add distinction to your garden. Pure white blooms with high tufted center and a double row of overlapping guard petals which enhances the beauty of this fine double Daisy. Flowers are produced in abundance from spring until freezing weather. Flowers come singly on tough, wiry 24-inch stems. Always showy in mass plantings and equally desirable as cut flowers. Plants are very vigorous and a great improvement over older varieties. **60c each; 3 for \$1.75; 5 for \$2.65, postpaid.**

Creeping ... Dainty Colorful **Phlox** Phlox Subulata

Masses of dainty, colorful flowers completely cover the plants all through early spring, hiding the attractive moss-like evergreen foliage. A perfect plant for terraces, banks, borders, walk edgings, the rockery; also invaluable for carpeting bare spots. Grows scarcely 4 inches tall. The moss-like foliage stays green all winter. Hardy, easy to grow. Plant 1 foot apart each way to make a dense ground cover in a short time. Soil should be dry and sandy and not too rich. Should be planted in full sun. It is one of the most beautiful of the low creeping plants. Your choice of colors:

- 2180. **Alba**, pure white.
- 2182. **Laphami**, beautiful lilac blue.
- 2184. **Moerheimi**, charming pink.
- 2186. **Atropurpurea**, deep carmine red.

SUNBURST LOCUST

(Plant Pat. No. 1313) **1294.** Now for the first time we can offer the newest of shade trees — **New Sunburst Thornless Locust.** So called because 8 to 10 inches of the branch tips are covered with brilliant golden bronze foliage. The trees are more disease resistant than the common Locust. It has excellent branching habits; it is symmetrical and broadly pyramidal. Hardy, long-lived trees that will grow in a wide range of soil and climate. Extremely beautiful planted as a specimen in your garden or lawn. One tree will dominate your garden — yes, even your neighborhood. So be the first to have this beautiful new tree . . . Order today.

REDBUD →

(*Cercis Canadensis*)

1280. Also known as Judas-Tree. In early spring, large clusters of glowing rose flowers cover every branch and twig. After the spring blooming season, large, healthy, heart-shaped leaves appear. A graceful, small ornamental shade tree growing to a height of about 20 ft. It grows with very little care. Lovely for lawn specimens and in shrub borders, producing a breathtaking display every spring. Extremely decorative and highly recommended from every standpoint, since it is adaptable to a wide variety of soils.

CUT LEAF WEEPING BIRCH

↓ Picturesque Summer and Winter

1202. The aristocrat of all Birch trees. Graceful, pendulous branches, finely-cut silvery green foliage and shimmering white bark make this a tree of great beauty the year around. Unmatched by any other ornamental tree. Grass will grow right up to the trunk. Needs no elaborate soil preparation, but prefers a moist location and a sunny spot. The white bark comes a year or two after planting. A single specimen or a group will add distinction to your lawn.

↓ TREE WISTERIA

Increases in Beauty Year after Year

No lovelier sight can be imagined than a tree Wisteria in full bloom. Bears great profusions of large racemes of charming, pea-shaped flowers somewhat resembling a bunch of grapes in size and form. Flowers are produced by the hundreds and completely cover the tree during May. When in bloom, the tree is a thing of sheer beauty. Once planted, the tree increases in beauty each season. On the lawn, the tree develops into a beautiful specimen and lives for generations. Easy to grow from coast to coast excepting in the very coldest states. Trees grow 6 to 8 feet tall at maturity. Choice of colors: **1292, Purple** (the most popular color); **1290, Pink** (very rare and unusually beautiful.) (Balled in Peat.)

new **Silver Queen Maple**

SEEDLESS — FAST GROWING →
VERY HARDY — GROWS ANYWHERE

1238. This is an entirely new Maple. It grows so rapidly that just a few years after planting you will have a handsome Shade Tree.

Silver Queen is a **drought resistant** tree. **Very hardy.** An amazingly **rapid growing** tree. Silver Queen is **seedless.** No more unsightly seed to clutter your lawn or clog gutters. This beautiful tree has interesting **cut leaf** foliage, and is **pyramidal** in growth.

The rapid growth of the Silver Queen is the answer to the problem of thousands of home owners who want shade in a short time. It won't be necessary to wait a generation for shade if you plant Emlong's New Silver Queen Maple.

Moraine Locust

MORaine LOCUST

Sensational New-Fast Growing Shade Tree

1220. The beautiful, new Moraine Locust is a hardy, drought-resistant tree that grows successfully on a wide range of soils. It withstands the same extremes in temperature as the common Honey Locust, and is as long-lived. Being sterile, there are no unsightly seed pods to clutter the lawn; non-fruiting habit also makes for better foliage.

The Moraine Locust forms a large, beautifully shaped head, similar in appearance to the American Elm. The finely cut foliage allows enough light to filter through to promote excellent growth of lawns, yet provides shade dense enough to discourage crabgrass. Whether your need is for good shade quickly, or to replace undesirable trees, we believe you will agree the Moraine Locust is the answer. Try a planting this spring.

Stately **PIN OAK**

1228. Fastest growing of all the Oaks. Actually grows almost as fast as the American Elm. It is one of the most enduring of all trees. It grows in symmetrical, pyramidal form to a height of 75 to 90 feet at maturity. The rich green foliage is deeply cut and colors to a glorious coppery-red in the fall. A sturdy, rugged grower, adapting itself to all locations. For street and lawn planting it has no equal. A tree planted now will be a great pleasure for many generations to come.

Red Maple

Enjoy Cooler Summers With Emlong's Quality Trees

MULTIPLE BIRCH

1224. (Clump Birch) These are a special strain of beautiful American White Birch which produce three or more trunks from one root. The bark is white on 2 to 3 year old trees and stays white winter and summer. Dense, bright green foliage covers the fine graceful branches to provide beautiful contrast to the white bark. The foliage turns a pleasing yellow in the fall. Grows to a height of about 25 to 30 feet. Perfectly hardy, easy to grow, thrives everywhere. The Birches, with their artistic white bark and attractive foliage, are beautiful all seasons of the year. Widely used for specimen planting or naturalizing.

PYRAMIDAL MAPLE

1227. We are pleased to offer this new and handsome pyramidal form of Norway Maple. Tall, narrow growth habit makes it an ideal tree for small city lots. Has the same characteristics as Norway Maple — hardy, durable, clean growing; leaves are not harmed by city smoke and soot, or insects. Dense foliage is bright green in color and remains attractive throughout summer and late fall. Will thrive anywhere. Valuable for planting as lawn specimen; also for any area where a tall, narrow tree is desirable. A row of these will make an effective accent along property lines or driveways, and narrow parkways.

colorful Ornamental Trees

FAASSEN Red Leaf MAPLE

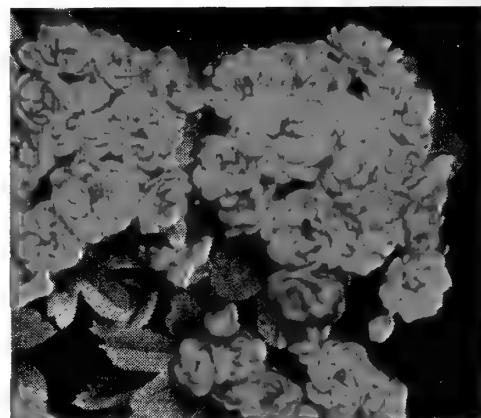

1210. This unusual tree will afford such a definite and striking contrast to your other plantings of shade trees that passers-by will stop and gaze. The foliage is of excellent texture; being deep red in color when it first appears, but becomes much darker as the season progresses until it is almost blackish-red. The contrast is breathtaking. Trees are perfectly hardy and retain their magnificent leaf color throughout the entire summer. The shape of the tree is excellent — compact and will grow into a fine shade tree. A superb tree for lawn, small or large, street trees or specimens for contrast among other trees. Complete your lawn with one or more of these outstanding trees for refreshing shade as well as colorful beauty. Supply limited. Order today.

Graceful WEEPING CHERRY

1253. One of the most beautiful flowering trees. Drooping branches grow from the top of the slender main trunk in a way that vaguely resembles the frame of an umbrella. In spring, the tree attracts much attention when the branches are covered with delicate clusters of dainty pink flowers. Sometimes used in pairs to accent entrances. Also planted singly in gardens or where attention needs to be focused. A feature of many landscape designs. Grows well in any good garden soil.

	Each	2
5 to 6 ft. trees.....	\$7.95	\$14.95

CARDINAL KING CRAB

COLORFUL FLOWERING CRAB

1256. **CARDINAL KING** is a new, recent introduction and unquestionably the most colorful Flowering Crab ever produced! In full bloom its beauty is truly breathtaking. Large, single blossoms of the most sparkling, crimson red imaginable, literally load the branches in early spring, presenting a picture of gorgeous flaming color. Give your yard new beauty by planting Cardinal King this spring. Used as a single lawn specimen, or among other trees and shrubs, its flaming beauty will make an impressive display. Trees are perfectly hardy and will thrive everywhere. Grow to a height of 15 to 20 feet at maturity.

Mountain Ash

Kwanzan Flowering Cherry

Double Flowering Dwarf Crab

MOUNTAIN ASH

1222. A most gorgeous ornamental shade tree that grows to a height of 40 feet forming a dense, thick head. In spring the tree is covered with white flowers in flat-topped clusters followed in late summer by massive clusters of brilliant orange berries which literally bend the branches with their load. Berries remain throughout summer and into winter, adding to the attractiveness of this fine tree. The narrow leaves, which are pinnate in shape and arranged on frondlike branches, are a striking contrast to the flashy berries and smooth brown bark. Hardy; does well in northern states, and will thrive in any soil with very little care. If you desire a sparkling, colorful display in your yard in early spring right through fall and winter, plant a tree now!

TREE PEONIES

Truly a King of the Flowers!

Tree Peonies are a low, many branched shrub, growing to a height of 5 to 6 feet tall. Nothing can compare with its king-size blossoms. The flowers, which often measure 10 to 12 inches across, can be had in a variety of colors. Their texture is as fine as silk and they have a very pleasing fragrance. The stately trees are simply "loaded" with hundreds of blooms.

Tree Peonies have been grown in China for a thousand years, first in the gardens of the Ming Emperors, where they gained the name "The Imperial Flower of China".

They are very hardy, long lived and disease resistant. Grow well in any climate with any good, well drained garden soil being satisfactory. Need very little care.

Now at last you can have Tree Peonies at a price never before dreamed of. We offer the following colors: **Red, 2552; Pink, 2554; Purple, 2556; White, 2558.**

Glorious Hardy Phlox

These perennial Phlox grow to a height of 12 to 24 in., the first season and bloom for many weeks. Flower heads grow 5 to 8 in. long. These are the newest types with thickly clustered flowers.

AMERICAN BEAUTY. 2151. American-beauty pink.

CAROLINE VANDENBURG. 2153. The nearest to blue in Phlox.

CHARLES CURTIS. 2152. Non-fading sunset-red.

CHIEFTAIN. 2154. Deep crimson; non-fading.

ELIZABETH ARDEN. 2157. Soft pink; extra large flowering.

PINKETTE. 2158. Large; very lovely soft pink.

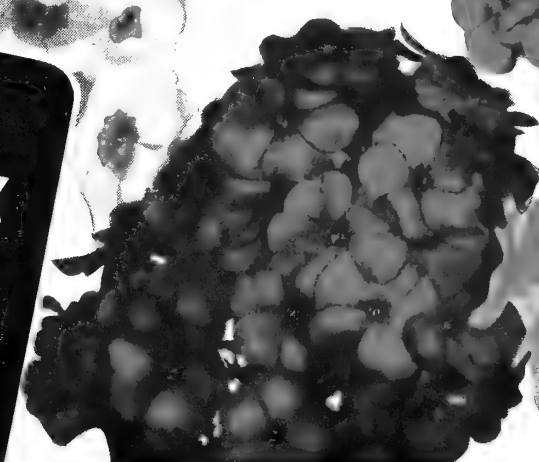

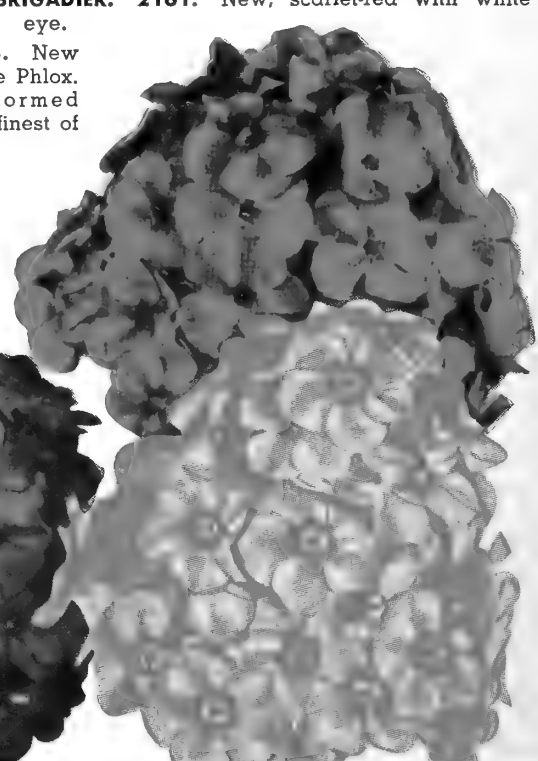

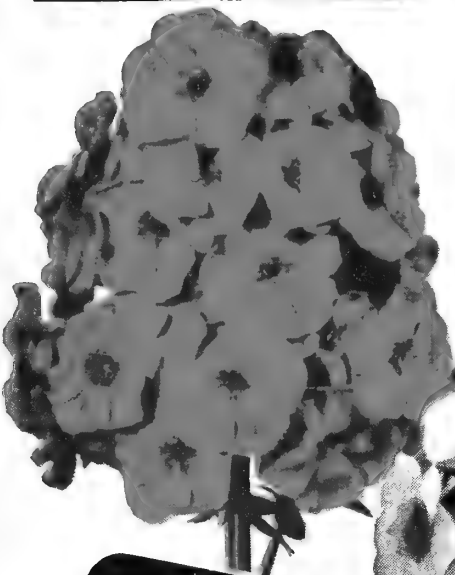

SALMON GLOW. 2168. Large florets of flame-pink with salmon shades.

SAN ANTONIO. 2159. Vivid carmine, shaded plum.

BRIGADIER. 2161. New, scarlet-red with white eye.

WORLD PEACE. 2163. New beautiful pure white Phlox. Very large, well-formed flower heads. The finest of all whites.

PHLOX PRICES: 2-yr. field-grown plants, 50c each; 3 for \$1.35; 6 for \$2.45, postpaid.

Pink Lythrum

Plant Emblong's PERENNIALS PAINT YOUR GARDEN WITH COLOR

PINK LYTHRUM

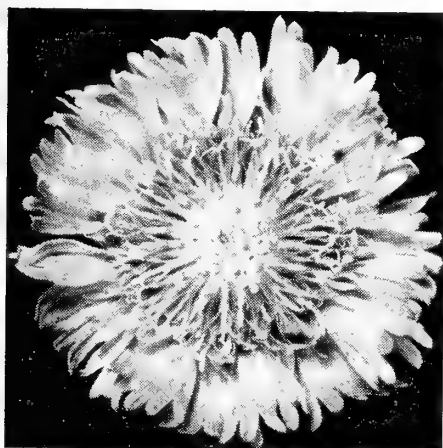

2066. An excellent summer flowering perennial. The plant grows to height of 3 feet with flower spikes 12 to 18 inches long, making a very showy display. Each plant bears dozens of spikes covered with bright pink flowers, held proudly above the dense foliage, through late summer. Fine for shaded areas and around pools. Does well in dry weather, but comes into perfection in a moist location. Very substantial and easy to grow; will thrive in ordinary garden soil. Very hardy. A fine cut flower and very effective in bouquets. **60c each; 3 for \$1.65, postpaid.**

Foxgloves

HYBRID FOXGLOVES

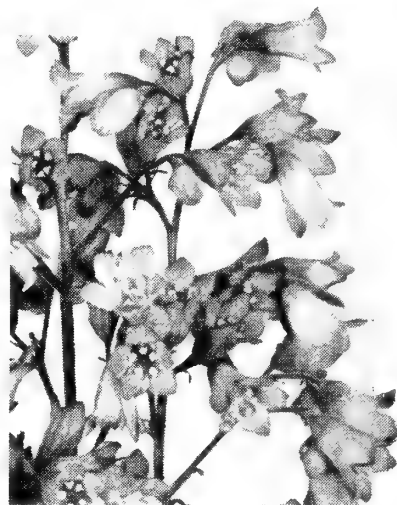

2046. Beautiful "wedding-bell" flowers in a wide range of solid and two-tone colors, with dotted throats. Flower heads are 2 to 3 feet long, thickly clustered with large bell-shaped blossoms. For continuous bloom, nearly all summer, cut off old stems when flowers fade. A mass planting in beds or border will produce a truly charming effect. They may also be used for a shady border or woodland garden. **50c each; 3 for \$1.35, postpaid.**

Stokesia

DAINTY PINK CORALBELL

2048. (Heuchera) Charming coral-pink, bell-shaped flowers produced on wiry stems 2 feet tall. The plant forms a mound of geranium-like leaves close to the ground, from which the stems arise carrying the blossoms in graceful panicles. An ideal cut flower and border plant. Blooms from May until September. **60c each; 3 for \$1.65, postpaid.**

Coralbell

BLUE MOON ASTER

2080. (Stokesia) Immense, 5 to 6 inch flowers of exquisite light blue are borne on upright, stiff stems 12 to 18 inches in height. It is of easy culture and flowers throughout the summer and autumn until stopped by a hard frost. Will thrive in sun or partial shade; easy to grow. An excellent plant for forefront of the border. Vigorous growing and free flowering. **50c each; 3 for \$1.35, postpaid.**

Violas

COLORFUL VIOLAS

2084. Often called "Hardy Pansies", these enchanting little blossoms appeal to all who love flowers. The plant grows 6 to 8 inches tall, will thrive anywhere, and blooms from early spring until fall. A perfect plant for low borders and for masses of color in the rock garden. Assorted colors only. **50c each; 3 for \$1.35, postpaid.**

ORANGE BUTTERFLY PLANT

2068. (Asclepias) Sweet-scented, 3 to 4 inch flat clusters of the brightest orange flowers you have ever seen. Attracts butterflies. The plant is dwarf growing and very hardy; withstands severe winters and hottest summers. Very free flowering from July to fall. A startlingly vivid and splendid color addition to the perennial border and for growing in front of shrubbery. Lovely for cutting. **50c each; 3 for \$1.35, postpaid.**

Asclepias

BLUEBIRD VERONICA

2082. The aristocrat of the perennials! The heavy flower spikes are completely studded with intense, lustrous deep blue blossoms. Blooms freely, providing a fine display from midsummer through fall. The sturdy, 12 to 18 inch flower spikes are fine for cutting and very effective in bouquets. This hardy plant is indispensable for the perennial border and a quantity of them should be included in every garden. **60c each; 3 for \$1.65, postpaid.**

WHITE FEVERFEW

2042. An attractive, medium tall plant. It has finely divided leaves and small, double white flowers on stems 12 to 18 inches in height. Bears a profusion of bloom throughout the summer. Will grow freely in ordinary well-drained soil. Plant one foot apart in sunny border. A group of these make a most effective display in border planting. The long-lasting flowers make lovely bouquets in themselves, as well as in combination with other summer perennials. **50c each; 3 for \$1.35, postpaid.**

Bluebird Veronica

White Feverfew

ASTILBE

A brilliantly colored perennial with attractive, branched, feathery flower heads. This is one of the easiest Perennials to grow, as it is not particular as to soil. In June and July, exquisite 18-20 inch long, plummy wands of feathery character and brilliant coloring appear. As roots age, stems become more and more numerous and more flower plumes appear. Plant in full sun or in semi-shade. Blooms last over a long period, providing a vivid splash of unusual color in the garden. Specify color wanted.

FANAL. 2018. A feathery spike of intense, rich red. Blooms last over a long period.

GLADSTONE. 2017. Lovely pure white, strong growing and free flowering.

PEACH BLOSSOM. 2019. Beautiful dense, feathery plumes of light rose.
75c each; 3 for \$1.95, postpaid.

Fancy-Leaved CALADIUMS

The magnificent large leaves of the Caladium, with their brilliant and interesting color variations, produce a truly stunning effect wherever grown, and for table decorations they are unequalled. Bulbs started indoors in January and February make showy plants for Easter and Mother's Day, or plant in the garden in April and May for a continuous foliage display from late spring until frost. Dig bulbs in fall and use again the next Spring. Plant in full sun or light shade where they will perform satisfactorily all summer.

CANDIDUM. 2740. Snow-white leaves with green veins and network; narrow green border.

RED FLARE. 2742. Dwarf growing. Large red center, green border.

LORD DERBY. 2744. Transparent rose; dark green ribs, green edge.

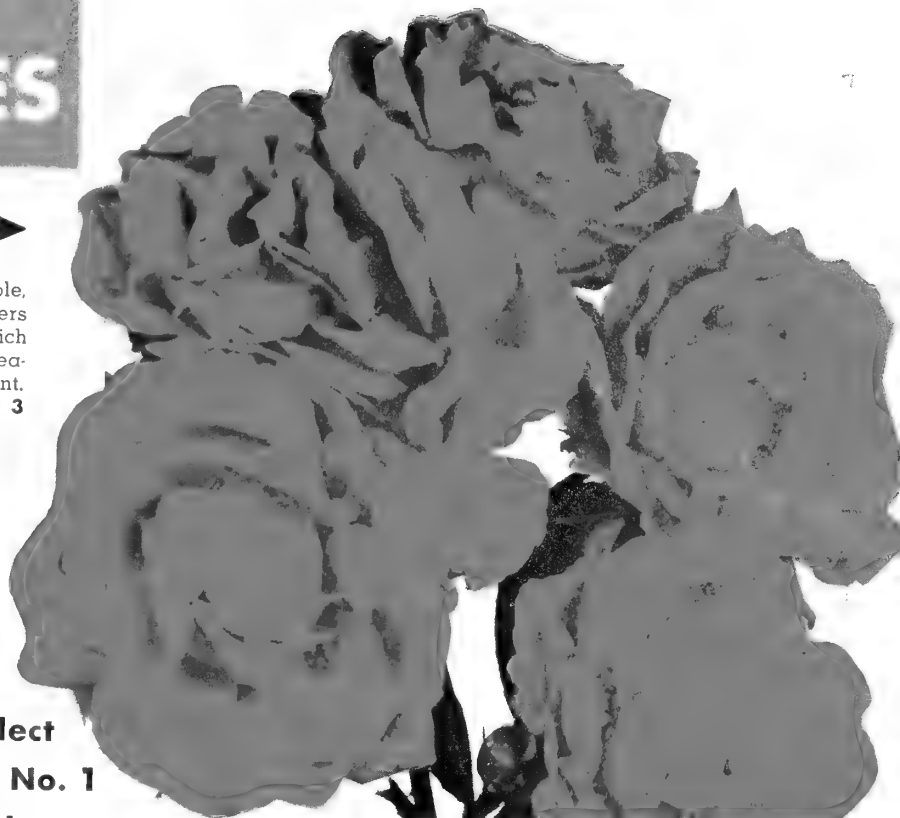

50c each; 3 for \$1.35; 6 for \$2.50, postpaid.

EVERBLOOMING CLIMBING ROSES

BLAZE EVERBLOOMING →

1702. Hardy, everblooming climbing Rose which has very double, well-shaped, blazing-red flowers. Blooms are produced in large clusters over a long blooming season. A very vigorous climbing variety, which will grow to considerable height. Makes a magnificent display all season with thousands of 2 to 3-inch blazing-red blooms on just one plant. Hardy and reliable, can be grown all over the country. **\$1.50 each; 3 for \$3.95, postpaid.**

Distinctively Different

FIRETHORN →

1434. (Pyracantha Lalandi) A remarkably beautiful berried shrub that retains its foliage all winter. Attractive large trusses of pure white flowers bloom in May, followed by an abundance of brilliant orange-scarlet berries which densely cover the bush, making it a gorgeous "mound of flame!" The berries remain late into winter, prolonging the beauty of this colorful shrub. Very hardy and vigorous growing; it is perfect for foundation planting where soil is dry. Grows 4 to 6 feet tall. **2-yr. fieldgrown plants, \$1.95 each; 2 for \$3.75; 4 for \$6.75, postpaid.**

Charming PINK CASCADE TAMARIX

1415. P. P. No. 1275. A new and unusual shrub of exquisite beauty that you will want for your garden this spring. Masses of cascading panicles of flesh-pink flowers bloom from July into September. Has very attractive rich blue-green foliage. Makes a compact growth, about 6 feet tall. **18-24 in. 2-yr. field-grown plants, \$2.00 each; 2 for \$3.75; 4 for \$7.25, postpaid.**

← Fragrant HARDY VIBURNUMS

BURKWOODI. (Gardenia-Scented Snowball) 1418. This variety has the hardiness, rapid growth, beautiful foliage and general dependability of the family, plus a new loveliness of bloom and **gardenia scent**. Lovely waxy, bluish-white flowers are borne in ball-like masses. Grows 3 to 4 feet tall. Plant in well-drained location. **2-yr. plants from pots, \$1.75 each; 2 for \$3.25; 4 for \$5.95, postpaid.**

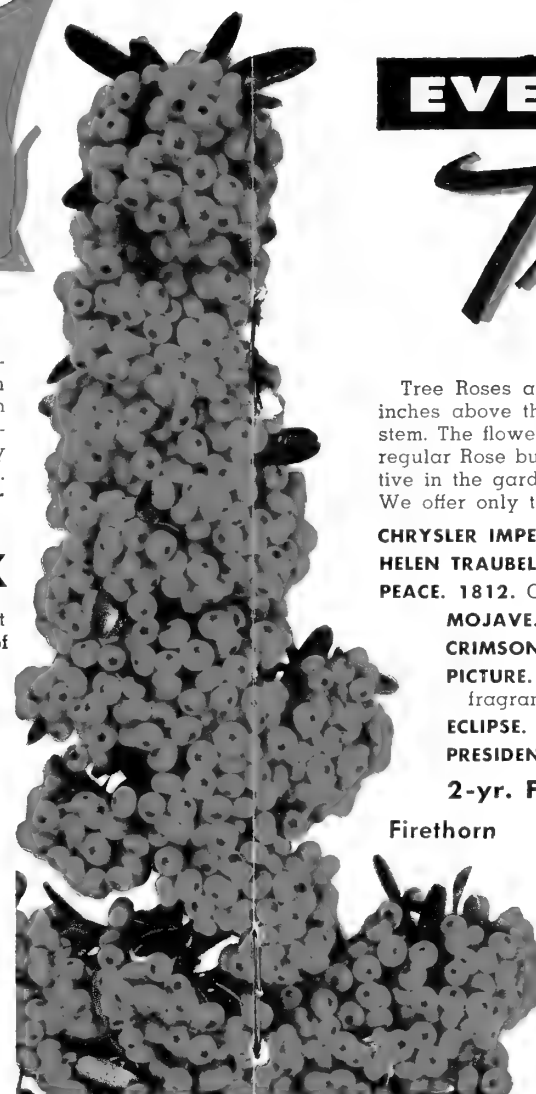

CARLESI. (Fragrant Pink Snowball) 1417. One of the most popular and widely planted spring flowering shrub. The delicate-pink blossoms are so fragrant, they perfume the entire yard. Attractive dark green foliage turns bronzy-red in the fall. Grows 5 to 6 feet tall; very hardy, thrives in full sun or part shade. **2-yr. field-grown plants, \$2.25 each; 2 for \$4.25; 4 for \$7.95, postpaid.**

SUNBURST SHRUB

1378. (Hypericum Hidcote) From a famous estate in England comes this new variety of Hypericum. The bright golden yellow flowers, 2 to 3 inches in diameter are produced in profusion during the spring months and again in the summer. This beautiful shrub deserves a prominent place in every garden. **Select, 2-yr. field-grown plants, \$1.95 each; 2 for \$3.75; 4 for \$7.25, postpaid.**

HEAVENLY BLUE ALTHEA

1305. (Althea Coelestis) Among the showiest of all flowering shrubs. We are proud to offer this beautiful new introduction — Heavenly Blue. The large, wide-open, flaring flowers, often 3 to 4 inches across, are borne on long stems from July until frost. These are erect growing shrubs of stately and formal shape. Particularly well suited for screens, lawn specimens, shrub border or colorful hedge. **18-24 in. field-grown plants, \$1.50 each; 2 for \$2.75; 4 for \$5.25, postpaid.**

Firethorn

SNOWFLAKE MOCK ORANGE

1420. (Virginalis Snowflake) Lovely double and semi-double flowers, pure white with golden stamens, are borne in large clusters; have a delightful delicate fragrance. Blooms freely in June and July and occasionally thereafter. Bright green foliage remains attractive throughout the season. Shrub grows 6 feet tall; good upright habit. Fine for foundation planting, hedges or screens. Thrives in full sun or partial shade; ordinary soil and moisture. May be trimmed as desired. **2-yr. field-grown plants.**

EVERBLOOMING Tree Roses

Tree Roses are grown by budding the Rose on a stem trunk 40 inches above the ground, forming a bushy head at the top of this stem. The flowers produced are even larger and finer than those on regular Rose bushes. They bloom from spring until frost. Very effective in the garden, giving their fragrance and beauty at eye level. We offer only those varieties which bloom freely all season.

CHRYSLER IMPERIAL. 1810. Vivid crimson-red; richly colorful.

HELEN TRAUBEL. 1808. Varicolored; light pink to luminous apricot.

PEACE. 1812. Cream-yellow; petals edged appleblossom pink.

MOJAVE. 1816. Glowing orange with tones of scarlet. Fragrant.

CRIMSON GLORY. 1804. Intense crimson mellowed by velvety nap.

PICTURE. 1814. Glowing pink with undertones of salmon. Delightfully fragrant.

ECLIPSE. 1818. Tapering buds open to brilliant golden yellow blooms.

PRESIDENT HOOVER. 1820. Two-toned, flame-red and yellow flowers.

2-yr. Field-Grown Trees \$5.95 each 2 for \$10.95

FORSYTHIA LYNWOOD GOLD

1356. This beautiful new Forsythia originated in Ireland, and not only blooms more profusely but individual flowers are better and fuller in form. The branches are erect and solidly covered with golden yellow flowers from top to bottom in early spring. Ultimate height of shrub is 5 to 7 feet. For a magnificent show in spring, plant Lynwood Gold Forsythia.

COLORADO BLUE SPRUCE

1020. One of the most highly prized Evergreens. It grows in symmetrical shape and has bushy branches about the trunk. It is an ornamental tree of glistening silvery blue-green from early spring to midsummer. The trees are grown from select Blue Spruce seed but do not show blue to any extent until trees are 2-3 feet tall. The variable foliage color is highly decorative; should be used with discretion in foundation planting. As a specimen tree it is one of the best. It is very hardy and without doubt one of the finest blue-type evergreen trees. **Field-grown trees:**

PEACE (Plant Pat. No. 591)

1668. Winner of All-American Rose Selection for 1946. Ovoid buds are golden yellow etched with pink. As they open, they change from canary-yellow to pale gold, to iridescent cream. The petals are edged with appleblossom pink that deepens as the glorious 4 to 6-inch blooms slowly open. Delicate fragrance; attractive holly-shaped foliage. Blooms til frost. Disease resistant; hardy. 2 yr. No. 1 bushes, \$2.50 each; 3 for \$6.60, postpaid.

MIRANDY (Plant Pat. No. 632)

1664. Rich, glamorous, deep-crimson blooms open from long, pointed ovoid buds. Blooms are large, very double, with 40 to 50 petals, borne freely on long stems. Excellent foliage is heavy in texture and covers the erect symmetrical branches. Bush is vigorous and sturdy, generally reaching 30 to 36 inches in height. Very penetrating damask fragrance. Especially fine for cutting. Has excellent lasting qualities. 2-yr. No. 1 bushes, \$2.25 each; 3 for \$6.00, postpaid.

MOJAVE (Plant Pat. No. 1176)

1660. Winner of the only 1954 All-America Award for a hybrid tea. Mojave takes its name from the famous California desert, and the name fits perfectly. Its rich coloring is typical of a desert sunset — glowing orange shot with flame-like tones of scarlet and vermilion. The beautiful tapering buds open to big, pleasantly fragrant, richly colored flowers. 2-yr. No. 1 bushes, \$2.75 each; 3 for \$7.20, postpaid.

PINK FROST (Plant Pat. No. 1291)

1669. Huge, new hybrid tea of exciting blended pink coloring. Freely produces large, ovoid buds which open to very double, 5-inch charming pink flowers with 38 to 45 petals. Remarkably strong and pleasing Damask fragrance. The plant is a vigorous, sturdy grower; reaches 5 feet and up the first season. Growth habit is bushy to upright. Here is a rose of blue-ribbon quality; unusually long-lasting and exquisitely fragrant. 2-yr. No. 1 bushes, \$2.50 each; 3 for \$6.60, postpaid.

CHRYSLER IMPERIAL (Plant Pat. No. 1167)

1652. Newest of the red Roses. An exciting, rich, vivid crimson-red enhanced by vibrant overtones of dark oxblood red. The long, tapering buds open to very large blooms with 40 to 50 wide petals, symmetrically arranged. The bush is compact with abundant dark green foliage. Blooms continuously from spring to fall. Very free flowering. The 1953 AARS Award Winner. 2-yr. No. 1 bushes, \$2.50 each; 3 for \$6.60, postpaid.

HELEN TRAUBEL (Plant Pat. No. 1028)

1658. Unusually long, graceful buds open to very large flowers of good form, fine substance and pleasing fragrance. Color varies from sparkling pink to luminous apricot, sometimes orange. The plant is exceedingly vigorous; good grower; free bloomer with excellent foliage and habit. 2-yr. No. 1 bushes, \$2.75 each; 3 for \$7.20, postpaid.

PRESIDENT EISENHOWER

(Plant Pat. No. 1217)

1674. A beautiful red Rose that is both charming and dependable. The rich, rose-red color is brilliant and lively and non-fading. Large buds slowly open to 5-inch blooms with 35 to 40 petals. The flowers are well-formed, long-lasting and have a sweet old-rose fragrance. The plant is vigorous and sturdy with upright, bushy growth; stems are strong and straight. A splendid cutting variety. **2-yr. No. 1 bushes, \$2.25 each; 3 for \$6.00, postpaid.**

KATHERINE T. MARSHALL

(Plant Pat. No. 607)

1676. A very large pink Rose of exceptional beauty and form. Long, pointed buds of deep coral-pink open to well-formed flowers of sparkling warm pink. The heavy textured blooms, often more than 5 inches across, are long-lasting and non-fading. The plant is very hardy, unusually vigorous and tall growing. A fine cut flower; has rich, fruity fragrance. **2-yr. No. 1 bushes, \$1.75 each; 3 for \$4.65, postpaid.**

WHITE KNIGHT

(Plant Pat. No. 1359)

1680. All-America Rose Selections Award Winner for 1958. This superb new Rose is the only White Hybrid Tea ever to win this honor! Magnificent 5-inch blooms of pure white, satiny beauty; bloom freely and continuously; retain their purity of color until the petals drop and do not "ball" in damp weather. The plant is vigorous, bushy, upright; grows to 3 feet and more; has abundant, moderately thick foliage of lively green color. Has excellent resistance to disease and frost. Without question, White Knight is the perfect white Rose. **2-yr. No. 1 bushes, \$3.00 each; 3 for \$7.95, postpaid.**

NEW YORKER

(Plant Pat. No. 823)

1666. A truly red Rose. The dark color is clear and sparkling and the flowers are tremendous — often measuring 6½ inches across. The sturdy, upright plants are exceptionally vigorous and grow luxuriantly. Very profuse bloomer — blooms from June until cold weather. Delightful, almost Raspberry fragrance. Brings forth a wealth of perfect blooms all season. **2-yr. No. 1 bushes, \$2.25 each; 3 for \$6.00, postpaid.**

CHARLOTTE ARMSTRONG

(Plant Pat. No. 455)

1678. Long, blood-red buds open to cerise blooms of exquisite form; double, high-centered flowers with a sweet fragrance. Luxuriant foliage is deep green; highly resistant to mildew. Bushy, strong growing plant; producing blooms singly on long, straight stems. **2-yr. No. 1 bushes, \$2.25 each; 3 for \$6.00, postpaid.**

Everblooming Hybrid Tea ROSES

CRIMSON GLORY. 1606. Well-formed flowers of an intense, deep vivid crimson shaded oxblood-red and mellowed by a soft velvety nap; produced in abundance all season. Excellent foliage.

THE DOCTOR. 1626. Sparkling pink, pointed buds. One of the largest of all Roses — 5 to 6 inches across. The color is a uniform silvery pink in bud and open flower.

BETTER TIMES. 1604. Beautifully formed blooms of brilliant cerise, borne on long stems; have a very pronounced and enchanting fragrance. Bush is strong growing and vigorous.

CONDESA DE SASTAGO. 1608. One of the best two-toned Roses and an ever-popular favorite. The petals are deep golden yellow on the outside, and inside a rich copper-rose and scarlet.

McGREDY'S SUNSET. 1612. An outstanding Rose — perfect in form and gorgeously colored; orange-yellow overlaid with warm salmon-flame, tinted with delicate orange and rich scarlet.

EDITOR McFARLAND. 1610. Richly fragrant flowers of clear, brilliant pink. Noted for its perfection of form and long lasting quality. Plant is healthy, vigorous and free-flowering.

POINSETTIA. 1614. This free-flowering Rose will bring you the brilliance and glowing red color of the Christmas Poinsettia. Beautiful buds and blooms of velvety texture and unfading color.

ECLIPSE. 1608. The best all-purpose yellow Rose. Slim, tapering buds open into brilliant golden-yellow 4-inch blooms. The plant is strong growing; blooms continuously all season.

ROUGE MALLERIN. 1618. Gorgeous double blooms of brilliant red; penetrating damask fragrance. Plant makes a compact, erect growth; produces an abundance of blooms and healthy foliage.

K. A. VICTORIA. 1616. Considered one of the best white Roses because it blooms so freely and continuously, no matter what the weather. Magnificent double flowers of pure ivory-white.

FLORIBUNDA ROSES

Masses of Color for Borders, Beds, Hedges & Gardens

FASHION. 1752. (Plant Pat. No. 789) Brilliant, luminous-coral flowers overlaid with gold; enticing "old rose" fragrance. The plant is a mass of exquisite buds and blooms from June until frost. **\$2.00 each; 3 for \$5.25, postpaid.**

MA PERKINS. 1760. (Plant Pat. No. 1143) 1953 All-America Winner. The color is a translucent coral touched with yellow at the base, in the bud stage; then a glowing coral-shell pink in full bloom. You'll want to add this sparkling new beauty to your Rose garden. **\$2.00 each; 3 for \$5.25, postpaid.**

GOLD CUP. 1782. (Plant Pat. Applied For) 1958 AARS Award Winner — the first yellow Floribunda to be so honored! Fragrant, golden yellow flowers 3½ to 4 inches across, open gracefully from long slender buds. The rich coloring of the unfading flowers is further enhanced by luxuriant, shiny dark green foliage. **\$2.50 each; 3 for \$6.60, postpaid.**

FUSILIER. 1784. (Plant Pat. Applied For) Winner of 1958 AARS Award. An exciting, new red Floribunda. The color is a rich orange-red of great luminescence which deepens to bright cherry-red in the fall. Frilled, 3½ inch blooms are borne in immense clusters, continuously all season. Give your garden a brilliant, new color accent by planting Fusilier this spring. **\$2.50 each; 3 for \$6.60, postpaid.**

CIRCUS. 1751. (Plant Pat. No. 1382) Buds richly marked red, opening to an ever-changing succession of shades and tints of yellow, red, orange and appleblossom-pink. Full-blown blooms are a bright scarlet. **\$2.50 each; 3 for \$6.60, postpaid.**

PINOCCHIO. 1768. (Plant Pat. No. 484) Beautiful buds and flowers produced on long sprays. Color is a rich pink suffused with golden-salmon. Exotic fragrance. Bush is hardy and very prolific, producing a mass of buds and flowers all season long. **\$1.75 each; 3 for \$4.65, postpaid.**

RED PINOCCHIO. 1770. (Plant Pat. No. 812) Buds and open flowers are a rich carmine which deepens and acquires a velvety cast; the glowing color lasting until the flowers wither and fall. The 3½ inch flowers are borne in large clusters. **\$1.75 each; 3 for \$4.65, postpaid.**

GRANDIFLORA ROSES

Very Hardy . . . Long Lasting Blooms

Excitingly new class of Rose. Combining the free-flowering and rugged hardiness of the Floribundas with the long-lasting, larger flowers of the Hybrid Tea Roses.

BUCCANEER. 1773. (Plant Pat. No. 1119) Brilliant, sparkling blooms of clear sunshiny yellow. Long, tapering buds open to cupped flowers with about 30 petals. Delicate fragrance. **\$2.50 each; 3 for \$6.60, postpaid.**

CARROUSEL. 1772. (Plant Pat. No. 1066) New, vivid red Grandiflora. Will not blue from aging. Fully opened flower about 4 in. across. Excellent foliage. **\$2.00 each; 3 for \$5.25, postpaid.**

QUEEN ELIZABETH. 1776. (Plant Pat. No. 1259) 1955 All-America Winner! The color is a subtle blending of carmine-rose and dawn-pink; truly exquisite. **\$2.50 each; 3 for \$6.60, postpaid.**

MONTEZUMA. 1781. (Plant Pat. No. 1383) Vibrant scarlet-orange changing to a radiant salmon-orange in warm weather; large blooms of perfect form. **\$2.75 each; 3 for \$7.20, postpaid.**

Everblooming MINIATURE FAIRY ROSES

The smallest Roses in the world! Lovely buds, blooms and foliage. **Everblooming**, free-flowering, hardy plants — similar to Hybrid Tea Roses in every respect except size. Plants grow 8 to 12 inches high. Bloom continuously from Spring until Fall.

CENTENNIAL. 1720. Magnificent, velvety dark crimson with claret-wine shadings. Free flowering.

JACKIE. 1722. Largest, double Miniature Rose. Beautiful bright yellow, changing to creamy-gold. Blooms profusely all season.

PINK JOY. 1724. Lovely glowing pink with salmon-gold center. Fragrant, and perfectly enchanting in corsages and miniature bouquets.

PIXIE. 1726. (Plant Pat. No. 408) One of the favorite and most double blooming Miniature Rose. Pure white with blush pink center.

SWEET FAIRY. 1728. (Plant Pat. No. 748) Exquisite, tiny blooms, apple-blossom to rose-pink; fragrant, double blooms in great profusion.

GIANT *Pacific Hybrid* HARDY NORTHERN GROWN DELPHINIUM

The elegance and beauty of this marvelous new strain of Hybrid Delphinium almost defies description. Great stalks, 3 to 5 feet tall, bear enormous flower spikes heavily laden with individual flowers. Each flower is exceptionally large, 2 to 3 inches across, and perfectly formed. The blooms are single, semi-double and double. The colors are exquisite. Plant them in groups of four for best effect.

BLACK KNIGHT. 2122. Large flowers of the darkest royal violet shades. White bee. The individual blooms are beautifully formed and are of a remarkably rich color.

CAMELIARD. 2126. Clear, soft lavender with white bee. Very large, round florets of perfect form.

GALAHAD. 2124. Giant glistening pure white flowers with white bees. Florets often reach three inches in diameter and are heavily textured. Blooms are carried on 5- to 6-foot stems.

GUINIVERE. 2129. Light pink-lavender self with white bee. Excellent branching habits; beautiful large blooms. Long graceful spikes.

SUMMER SKIES. 2128. As beautiful as the name indicates. The blue is the blue of a summer sky and the white bees represent the fleecy clouds. The large individual florets are beautifully formed and carried on tall stiff stems.

50c each; 2 for 95c; 4 for \$1.75; 8 for \$3.35, postpaid.

GIANT CANNAS

THE PRESIDENT. 2360. Large, well developed flowers of a bright, glowing red. Blooms freely; makes an excellent showing from early summer until frost.

CITY OF PORTLAND. 2352. The flowers are rounded; the trusses nicely formed; the petals broad. The color is a bright, luminous pink. Lovely green foliage.

YELLOW HUMBERT. 2358. Large, showy blooms of golden yellow heavily flecked with red. The flower clusters are superb, contrasted with rich green leaves.

KING HUMBERT. 2356. Brilliant scarlet-orange flowers, of excellent size and quality. Purple-bronze foliage. Makes a striking display all summer.

RICHARD WALLACE. 2354. Beautiful large, well-formed flowers of golden yellow. Luxuriant deep green foliage. Grows 4 feet tall.

Each	3	6	12	24
30c	75c	\$1.30	\$2.45	\$4.60

Dainty LILY-OF-THE-VALLEY

2064. Everyone loves these delightfully fragrant white flowers. The exquisite, tiny waxy-white, bell-shaped blossoms hang from bold, strong 10-inch stems. Attractive green foliage is ornamental all season. The plants are prolific growers and spread rapidly. If given reasonable care, a bed of them will produce beautiful flowers in abundance for a lifetime. They thrive in either sun or shade, wet or dry. **3 for 60c; 6 for \$1.00; 12 for \$1.75, postpaid.**

CALLA LILIES

A delightful and unusual summer-flowering bulb for your garden. Tall, stately plants with beautiful trumpet-shaped flowers, that you will grow with pride and pleasure.

PINK CALLA. (Rehmanni) 2730. The pink or rose Calla. Sweetly scented. A rare species of the Calla Lily family.

YELLOW CALLA. (Elliottiana) 2732. Deep golden yellow flowers are produced in abundance. Green foliage spotted white.

WHITE CALLA. (Alba Maculata) 2734. White blooms with crimson blotch at base. Spear-shaped leaves spotted silvery white.

IVORY CALLA. (Ethel Roosevelt) 2731. A rare variety producing pale yellow flowers; larger than Elliottiana. **75c each; 2 for \$1.40; 4 for \$2.65, postpaid.**

DOUBLE HOLLYHOCKS

2291. One of the oldest flowers in cultivation the Hollyhock is found in almost every garden. The new sorts being offered, promise to continue this popularity. The magnificent double flowers are borne on long graceful spikes 5 feet tall. Blooms from midsummer until late fall. Easy to grow; very hardy. **Wide range of assorted colors. 50c each; 3 for \$1.35, postpaid.**

DECORATIVE OUTDOOR FERNS

Especially good in those cool, shady, problem spots. Ferns do well on the north side of the house or under trees. Valuable for locations where grass and flowers won't do well. Excellent for naturalizing; plants are not bothered by tree roots.

OSTRICH FERN. 2580. A luxuriant sturdy plant; for deep or partial shade.

MAIDEN HAIR. 2581. Thrives in shady spots. Height 1 ft.

SENSITIVE. 2582. Succeeds in sun or shade. Height 1 ft.

LADY. 2583. Finely cut fronds; does well in moist rich soil; sun or shade.

60c each; 2 for \$1.10; 4 for \$1.95, postpaid.

CAMPANULA

2025. Beautiful new perennial. Tall, erect growing. Unique cup-and-saucer shaped flowers are produced freely during May and June. Finely formed foliage and large flowers are very showy for background planting. **Assorted colors. 50c each; 3 for \$1.35, postpaid.**

Sensational New "SUMMER LONG" EVERBEARING PEACH

Fresh Peaches July to September

646. An everbearing Peach tree? That's right. Just imagine a Peach tree starting to bear about the 20th of July and continuing through the 25th of September. Have fresh Peaches all summer long from one single tree.

A Modern Fruit Tree for Your Garden

This Everbearing Peach is perfect for your garden. The "Summer Long" Peach has golden yellow flesh. It is a remarkable freestone Peach which has all of the excellent qualities of other Peaches and will produce tasty fruit from July until late September. Fruit is very delicious either for canning, eating fresh or for desserts and jams.

No Wasted Fruit — Enjoy Them As They Ripen

With this Peach tree in your garden, you can enjoy Peaches for two months instead of only a week or two. It will not be necessary to plant a variety of kinds, just one "Summer Long" Peach tree for fruit all summer. Trees are very hardy and require no more care than other varieties.

	Each	2	4
4-5 ft. branched trees.....	\$2.95	\$5.75	\$11.00

Emlong's Popular PEACH TREES

REDSKIN — New Red Color

522. A new introduction that is hardy, productive, large, beautiful and delicious! REDSKIN is a cross between the well known J. H. Hale and Elberta varieties and will eventually become as popular commercially as Elberta is today. Ripens with Elberta; has beautiful red color. Fruit is round, yellow-fleshed with little or no red near the pit. It is freestone, self-pollenizing; good for canning and freezing. Trees bear well, are hardy, vigorous, early bearing, resistant to disease.

O'BOY — Huge, Delicious

518. The largest, most richly flavored, beautifully round and uniform Peach ever grown. Skin is glowing orange blushed with carmine-red. Inside there is a sunburst of bright red from the pit into the sweet golden flesh. Firm of skin and flesh, an excellent shipper and canner. Ripens with Elberta, Freestone; hardy. Semi-fertile; plant a pollinizer every third row. (Propagation right reserved by Emlong's.)

RIO-OSO-GEM — Best Late

524. Ripens a few days after Elberta. Fruit is large, round and highly colored. Very attractive in appearance. Flesh is deep golden yellow, fine grained, firm and entirely freestone. Recommended for freezing, canning and shipping. Very hardy and heavy producer. Profitable for commercial growers and home orchardists.

J. H. HALE — Extra Large Peach

516. Richly flavored, fine textured, golden yellow flesh. Skin is bright yellow blushed with red; nearly fuzzless. Always sells at top prices. Semi-fertile; plant a good pollinizer every third row.

HAVEN

PEACH VARIETIES

2 GREAT NEW PEACH VARIETIES

Developed by Stanley Johnston — originator of the HAVEN strain of Peaches and introduced by Michigan State University Experiment Station at South Haven, Michigan.

New RICH HAVEN Ripens Midseason

523. The fruits are large, nearly round and uniform in size and shape. The color is a rich golden yellow, overlaid with a large, bright red blush. Extra firmness adds to the handling and shipping ability of the fruit. Flesh is clear yellow with a moderate amount of red near the pit; medium in texture and resistant to browning. Entirely freestone even when firm ripe. Ripens 15 days before Elberta and has made a good record in commercial canning trials. Attractive appearance and excellent shipping and handling ability, should prove Rich Haven a big money-maker for commercial growers. Home gardeners will also enjoy this variety because of its long keeping quality, delicious flavor and hardness.

New SUN HAVEN — Best Early Peach

527. Sun Haven, like Rich Haven, was developed to meet the need of growers for ever-better varieties maturing in succession throughout the peach producing season. It is one of the best, extra-early varieties to date — matures 10 days earlier than Red Haven and 40 days before Elberta. The fruits are large, nearly round and uniform in shape. Color is bright red with enough golden yellow ground color for attractive contrast. Flesh is clear yellow, firm, fine-textured, resistant to browning; has delicious flavor. Sun Haven is highly recommended as an extra early, top quality Peach.

PRICES FOR RICH HAVEN AND SUN HAVEN

	Each	2	5	10	25	100

3-4 ft. Trees	1.60	3.10	7.50	13.50	30.00	100.00

Please write for prices on larger quantities.

FAIR HAVEN — Honey Sweet

508. Developed through efforts of Stanley Johnson, Director of Experiment Station at South Haven, Michigan, Fairhaven is a cross between J. H. Hale and South Haven — its parentage is excellent. The fruits are medium large, of rich golden yellow color with bright red cheeks. Ripens August 10th to 20th. Entirely freestone. Ships exceptionally well. The trees are extremely hardy and vigorous; always produce a full crop in spite of a cold or foggy blossoming period, when many other varieties are unproductive.

HALE HAVEN — Fine Shipper & Canner

514. A large beautifully colored, yellow-fleshed Peach. Has delicious sweet flavor. Ripens approximately 15 days ahead of Elberta. Perfect freestone. Keeps exceptionally well even when shipped long distances. Considered one of the finest shipping and canning peaches grown. Trees are strong growers, very hardy and heavy producers.

Rich Haven

RED HAVEN — Extra Early

520. A flaming scarlet Peach that ripens extra early and is very hardy. Originating in Michigan, Redhaven will be colored up with gorgeous all-over red and ready to pick and ship while the fruit is still firm and easy to handle. Firm textured, fine, sweet, golden flesh; wonderful dessert Peach and good for freezing too. Trees bear very young, produce heavily year after year. Ripens 10 days ahead of regular Hale Haven. Freestone. Self-pollenizing.

ELBERTA — Great Commercial Peach

506. Universally known as the outstanding money-maker wherever Peaches are grown. Oval in shape with deep golden skin blushed carmine-red. Flesh is golden, fine grained, firm textured. Unquestionably the leading Peach for home and commercial use. Freestone. Self-pollenizing. Young bearing. Enormous yield at maturity.

OUTSTANDING NEW BLACK RASPBERRY

BLACKHAWK

Outyields All Other Varieties

701. A new Black Raspberry originated by the Iowa State College and introduced in 1955. Produces as many as 5000 pints per acre. The large to very large fruit often measures $\frac{3}{4}$ inches in diameter. Berries are sweet, juicy and have a rich flavor. Ripens midseason, about the first week in July. Plants are strong, healthy and vigorous. Berries have a rich glossy black color, are firm and stand up well in shipping.

New MAJOR – Big Yields & Big Berries

706. Originated in Berrien County, Mich. — and by every test the leading Blackcap! Yields bigger crops of top quality berries than any other variety. Berries are larger, glistening black, uniformly round, firm textured and extra rich in flavor. They sell at higher prices than other blackcap varieties. For profitable commercial crops and for home gardens, we highly recommend Major. Prices below.

MORRISON – Outstanding Late Variety

708. An outstanding late ripening variety. Berries are very large and less seedy than others. Very firm texture yet juicy and deliciously flavored. Hold their shiny black color and firmness exceptionally well; excellent for canning and freezing.

Latham

L

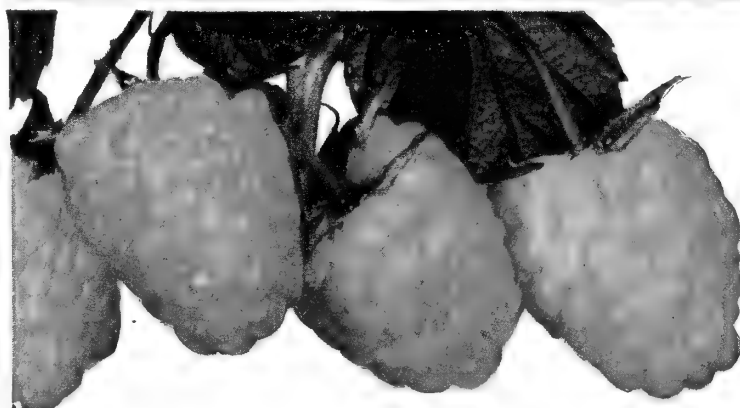

RED RASPBERRY

Latham

The Commercial Leader

732. Beautiful large, golden yellow Raspberry. Many prefer Golden Queen because of its sugary sweetness and unsurpassed flavor. An attractive dessert berry and very unusual when served in combination with either Black or Red Raspberries as a dessert. The canes are hardy, vigorous growers and heavy croppers. Ripens with Latham. Culture is the same as that for Red Raspberries.

GOLDEN QUEEN RASPBERRY

712. Attractive deep red berries, uniformly round and unusually large; often measuring one inch in diameter. Deliciously full-flavored and aromatic. Latham berries are top quality and always in demand for fresh desserts, canning and freezing. They bring highest prices on the fruit market and have long been the leading commercial variety. Plants are hardy, thrifty growers and bear enormous crops. Sometimes surprise you with extra berries in the fall on the new growth.

GROW Giant Blueberries

— COMMERCIALY
or IN YOUR OWN GARDEN

Enjoy juicy, giant, luscious Blueberries right from your own bushes. Blueberry plants have a dual purpose in your planting. They are excellent ornamental shrubs; both when in bloom with large clusters of Lily of the Valley like flowers, or when loaded with ripening berries, as well as affording delicious fruit for your own use, or market for profit.

The foliage of the Blueberry turns red in the fall, giving a pleasing contrast among other shrubs. Plant Blueberries in shrub borders, hedges, or for tall foundation plantings.

For a big money-making crop, these giant size, dark blue Blueberries are without equal. Each bush is a fruit garden in itself. Berries are mild and sweet. Fruit ripens over a long season and keeps well on bushes and after being picked.

Blueberries can be shipped long distances and make a very profitable crop for the commercial grower. Plants usually start to bear the third year and increase in productiveness until the tenth year. Plant two or more bushes for perfect pollination; set 5 to 7 feet apart.

JERSEY — Midseason to late No. 744 Vigorous hardy bushes; yield extra large berries. In our opinion Jersey is superior to other varieties.

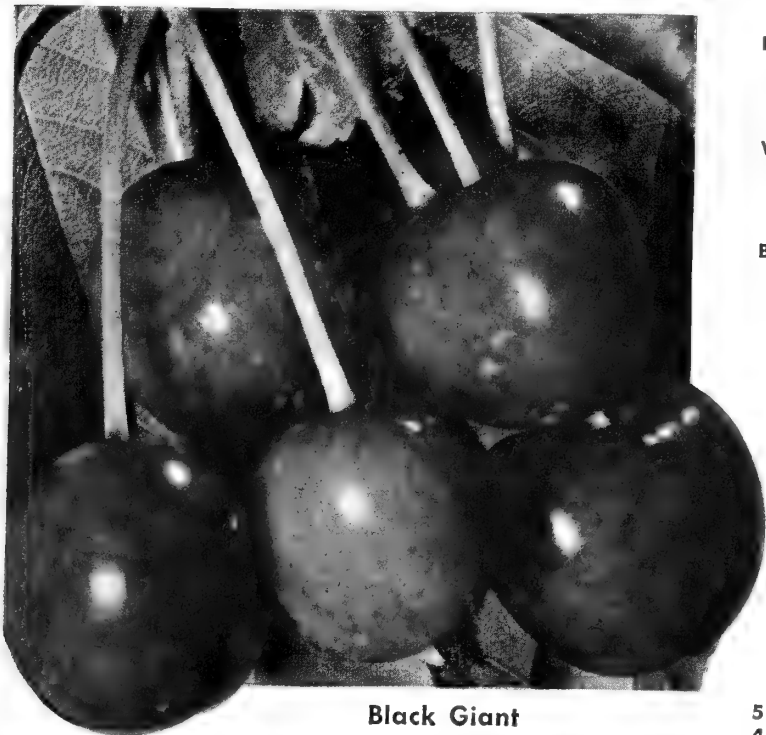

RUBEL — Midseason No. 748 A very hardy upright bush, that gives generous yields of medium to large size fruit.

RANCOCAS — Early No. 746 The Rancocas variety is of excellent quality, and produces a good crop over a long picking season.

HEAVY BEARING

SWEET CHERRIES

BLACK GIANT. 406. Our largest, blackest and sweetest Cherry! Bears the heaviest crops of any Sweet Cherry we have grown. Ripens late, keeps a long time on the tree. Excellent shipper and canner. Hardy as Tartarian. A beauty which you will grow with pride. Self pollenizing.

WINDSOR. 414. Cherries ripen late, prolonging your Cherry profits. Fruits are large, dark maroon in color, with wonderful keeping and shipping quality. Very hardy and an abundant yielder. Self-pollenizing. We highly recommend Windsor for a well-rounded orchard.

BLACK TARTARIAN. 408. The very popular purplish-black Sweet Cherry, which ripens so early and has marvelously rich flavor. Fruit matures to large size. Trees are hardy and bear young and heavily. A leading shipping and canning Cherry. Excellent pollinizer.

SCHMIDT. 412. For the midsummer market there is no finer Sweet Cherry grown. Fruits are extra large, plump and uniform in size. A beautiful dark, glossy black in color. The flavor is rich and superb. Quality is extra firm and fine for fresh desserts and canning. Good shipper. Hardy, prolific bearer. Plant Black Tartarian for pollinizer.

NAPOLEON. 410. The favorite golden Sweet Cherry with beautiful pink cheek. Known in some sections as Royal Ann. Very large fruits; deliciously sweet flavored. Favored for fresh desserts and canning. Heavy producer and good pollinizer.

BING. 404. Famous from coast to coast. Wonderful dessert cherry. Richly flavored, extra large size, brownish black-red color. Ripens midseason. Self-pollenizing.

Grow Full Size Fruit in Your Own Back Yard

DWARF APPLE TREES

Dwarf Apple Trees are in great demand by the grower with limited space. The small trees grow about 8 to 12 feet tall at maturity and do not spread more than 10 to 12 feet. Although the trees are dwarf in size, they will bear the same size fruit as the standard trees. They often start bearing the second year after planting. Mouth-watering fruit is produced in abundance and is easily picked. A dwarf apple tree is a beautiful addition to your landscape as an ornamental tree. Enjoy this easy-to-pick fruit in your own yard without delay. Plant several trees of different ripening dates to give you a succession of apples all season.

Important: Plant with bud union 2 to 3 inches above surface of the ground. Limited supply. Order now.

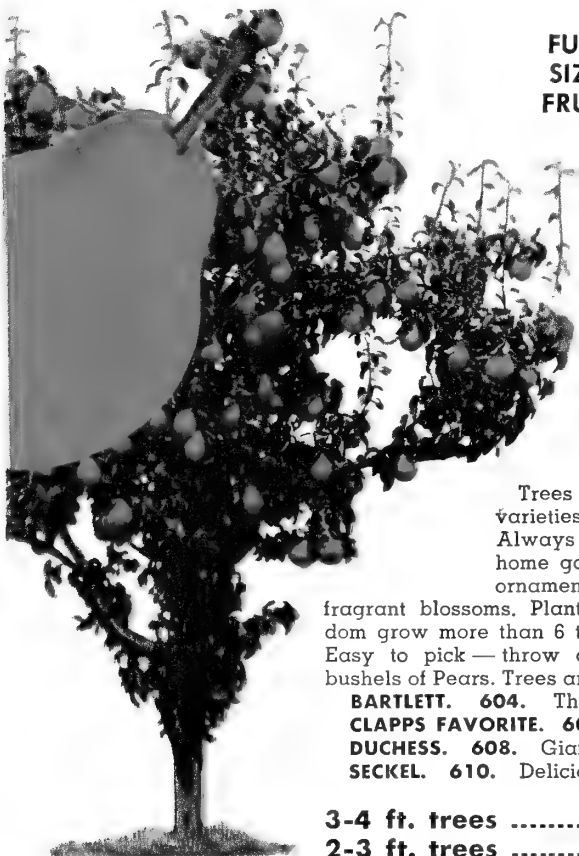

Varieties:

Solid RED DELICIOUS. 614. Truly King of all red winter apples.

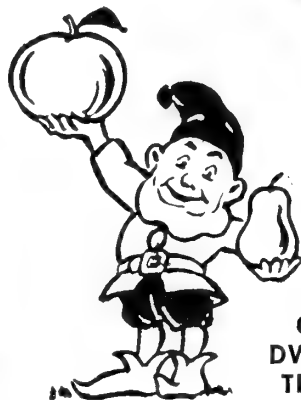

Bright RED JONATHAN. 616. A big favorite for both cooking and eating.

RED McINTOSH. 620. The best red fall apple. Juicy, fine for sauce or fresh fruit.

TREES

DWARF PEAR TREES

Trees bear full-sized, delicious fruit, the same as standard varieties. Often start to bear the year after planting. Always produce a full crop of large sized fruit. Ideal for the home garden and growers with limited space. Trees are very ornamental in spring with their abundance of creamy white fragrant blossoms. Plant as close as 5 feet apart. These sturdy dwarfs seldom grow more than 6 to 10 feet tall and are loaded to the ground with fruit. Easy to pick—throw away your ladders, stand on the ground and pick bushels of Pears. Trees are hardy, thrifty and heavy bearers. **Varieties:**

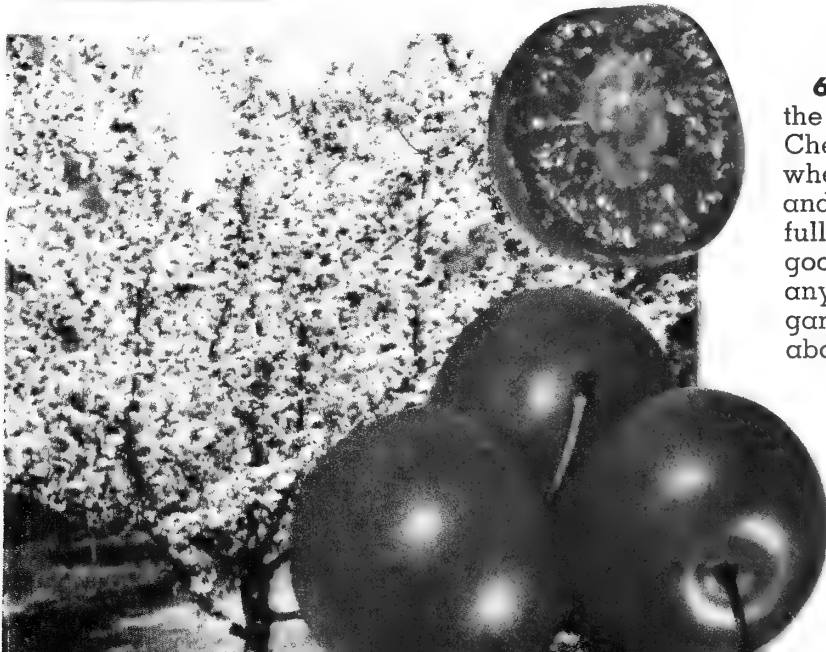

BARTLETT. 604. The favorite summer Pear.

CLAPPS FAVORITE. 606. Large pale yellow with red blush. Early summer.

DUCHESS. 608. Giant size. Tender, juicy. Early fall.

SECKEL. 610. Delicious sugar sweet. Late summer pear.

◀ OKA DWARF CHERRY

628. Larger than Cherries, fruit is dark purplish-red all the way through and very delicious. This hardy, Hybrid Cherry Plum bears a full crop even in the coldest climates where Cherries do not thrive. Very hardy, early bearing and of prolific Dwarf habit. Showy blossoms followed by full crop of fruit. The trees themselves are shapely with good foliage, flowers and fruit, attractive enough to plant anywhere. A beautiful and ornamental tree to plant in garden or border, preferably near Plum trees. Fruit is about 1 inch in diameter, very sweet and very delicious for eating fresh, and for jams and jellies. Fruit ripens late July or early August. Plant two trees for best results. Bears quickly.

Dwarf Peaches

BIG Peaches ON DWARF TREES

Raise Full Size Fruit in Your Own Back Yard

We are now able to offer Dwarf Peach Trees producing full size delicious peaches, often larger than those produced on full size trees. These trees are grown on special root stock with an ultimate height of 6 feet. The fruit can be picked from the ground without the necessity of having a ladder. The tree is easy to care for, requiring very little space and will bear fruit for many years. It is a heavy producer; providing more than enough fruit for you and your family. Also a beautiful ornamental when in bloom in the spring. You can enjoy luscious fresh peaches picked right from your own trees even though you have only an ordinary sized backyard. A perfect tree for beauty and fruit. We are offering these trees in four varieties only. **The supply of these trees is very limited. Order early.**

NEW SEPTEMBER

EVERBEARING RED RASPBERRY

Bears Two Crops In One Year

714. A superior autumn-fruiting Red Raspberry that ripens about 5 days earlier than Newburgh; fall crop matures 3 to 4 weeks before other varieties, thus avoiding failure due to fall freezes. The plants are hardy, vigorous growing and increase rapidly. Berries are bright red and uniform in shape. Keep well on bushes and after picking.

EARLY RED *New Early Raspberry*

710. The most outstanding early Red Raspberry yet produced. Originated by Stanley Johnston of the South Haven, Mich., Experiment Station, EARLY RED is a cross between Lloyd George and Cuthbert varieties. EARLY RED berries have a quality and flavor that make them perfect for canning and freezing. Ripens 10 days earlier than Latham, bringing highest first-of-the-season berry prices.

New DURHAM Red Raspberry

711. Large, plump, juicy berries, free from seediness and full of delicious flavor, are borne until frost. The non-crumbling, red berries ripen down the cane so the foliage protects the late fruit. Plants are hardy, vigorous growing and increase rapidly. The full-flavored berries are delicious to eat fresh, canned or frozen. Its large size, firm berries also make this an excellent shipping variety.

The New RED RHUBARBS

VALENTINE. 858. Deep bright red in color. Texture smooth and tender. Has a rich flavor with a slightly tart aftertaste. The Valentine is an introduction of the Ontario Horticultural Experiment Station and has taken the lead among the red Rhubarbs. Combining very high quality and richness of flavor, vigor and growth, the Valentine will soon be the standard by which all other Rhubarbs are measured. Plant Valentine this spring and enjoy its fruit for years to come. 80c each; 3 for \$2.20; 6 for \$3.95, postpaid.

RUBY RED

856. Large, plump, red-in-the-center stalks of the sweetest Rhubarb that you ever tasted. Excellent for pies and sauce; stalks are tender and never stringy. Early spring fruit, quickly forms a large-clump. Hardy and easy to grow anywhere. Three mature plants will supply the average family for year-round use. 75c each; 3 for \$2.00; 6 for \$3.50, postpaid.

Plant Emlong's PLUM

RED GIANT

An Amazing New Plum
Large in Size

558. One of the most beautiful Plum. Roundish oblong in shape, the fruit often measures 2½ to 3 inches long, in clusters of 7 to 12 giant beauties on the end of each branch. Ripening early. Red Giant plums attain a deep glowing maroon-red color, thickly overspread with pink bloom. Flesh is greenish yellow, very firm, fine and sweet. Red Giant is an outstanding all-purpose Plum; good for the small home garden and for the commercial grower, too. Wonderful shipper and canner. Plant 2 trees for best results. (Grown and sold only by Emlong's. Property rights reserved.)

Famous GREAT EUREKA

**QUICK-BEARING
HEAVY-YIELDING**

552. The delicious flavor of Eureka is a combination of Plum, Apricot and Peach. The fruit is thin-skinned, juicy and pleasant to eat; separates easily from the pit. The flavor is delicious. Eureka is known as the "Red Nectar" fruit because the juice is red and sweet. The trees start bearing young and always produce enormous crops. Good profitable commercial variety; fine for the small home garden, too. Plant 2 or more trees for best results. (Emlong's propagating rights reserved).

Eureka

SUPERIOR

Semi-Dwarf, Young Bearing

562. The fruits are extra large, have beautiful wine-red skin covered with purple bloom. Yellow flesh is delicious, sweet and juicy; freestone. Here is a superior all-around Plum for every purpose. The fruits are good shippers and keep exceptionally well. The trees are very hardy, bear early and yield big crops. An outstanding money-making variety for commercial growers. Extremely hardy and vigorous grower; recommended for northern and western states. For best results plant 2 or more trees.

TREES ENJOY THEIR FINE FRUIT

STANLEY PRUNE

The Sweetest Prune Grown

560. Sweetest Prune grown and bears the quickest. Often starts bearing the second year and yields heavily every year. Beautiful dark blue skin, overspread with attractive bloom. Fine sweet, juicy golden flesh. Juice is rich wine-purple. Freestone. Ripens mid-season. Hardy and thrifty grower; self-pollenizing.

ITALIAN PRUNE — A Favorite

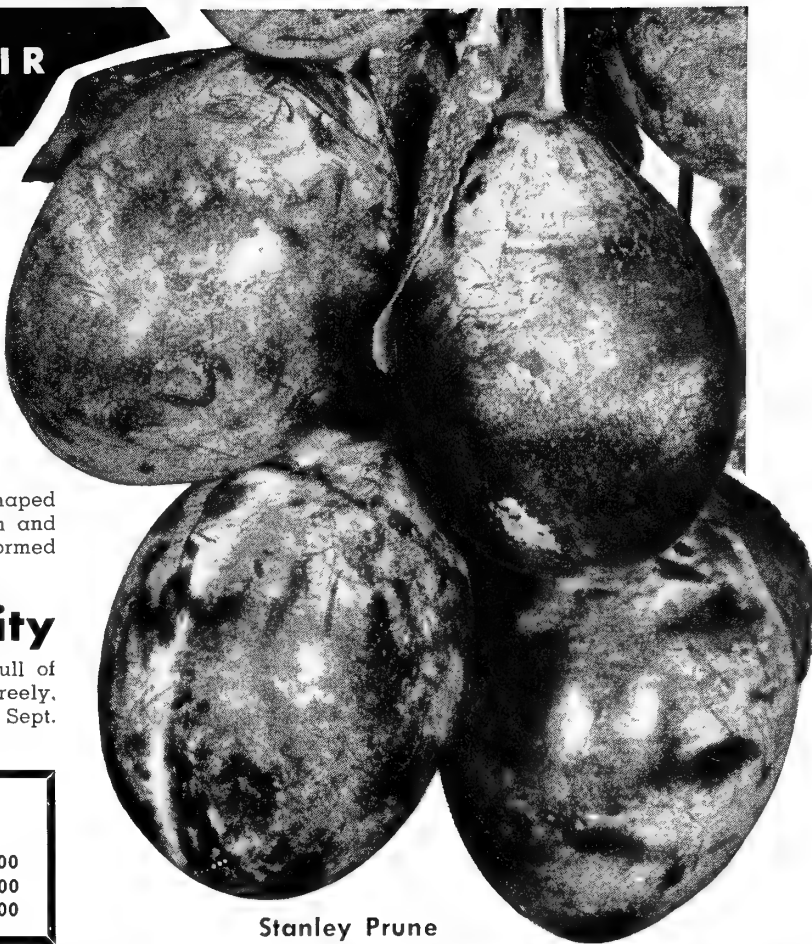

556. Is the most widely grown of all Plums. Large, oval-shaped purple-blue Plum with attractive coating of blue bloom. Flesh is firm and golden, good texture and flavor. Tree is hardy, productive, well formed and bears regularly. Self-pollenizing. Excellent shipper.

GREEN GAGE — Tops in Quality

554. The famous dessert Plum with the sweet-tart flavor. Just full of sweet, sugary flavor. Large, greenish-yellow fruits are produced freely. Flesh is fine-grained, firm and juicy. Freestone. Ripens in early Sept. Self-pollenizing. It is not suited for extremely cold sections.

Emlong's Outstanding

PEAR TREES

DELICIOUS — EASY TO GROW

BARTLETT. 452. The leading commercial Pear. Large, waxy yellow fruit with red blush. Flesh is superbly flavored, fine textured white and juicy. Ripens in summer. Bartlett is the most widely known and attractive of all Pears. A big money-maker. Favored for fresh desserts, canning and summer storage. Plant Emlong's PRIDE-O-MICH strain to insure perfection.

BOSC. 454. There is no finer flavored Pear than the long necked Bosc, which is sold on the fancy fruit stands at a handsome profit. Firm skin makes it a wonderful keeper. Unequalled as a dessert Pear with its very firm, sweet white flesh.

CLAPP'S FAVORITE. 458. Large, uniform pears with beautiful green skin deeply blushed carmine-red. Flesh is crisp, white, juicy and sweet. Hardy, thrifty grower and bountiful producer. Ripens in summer.

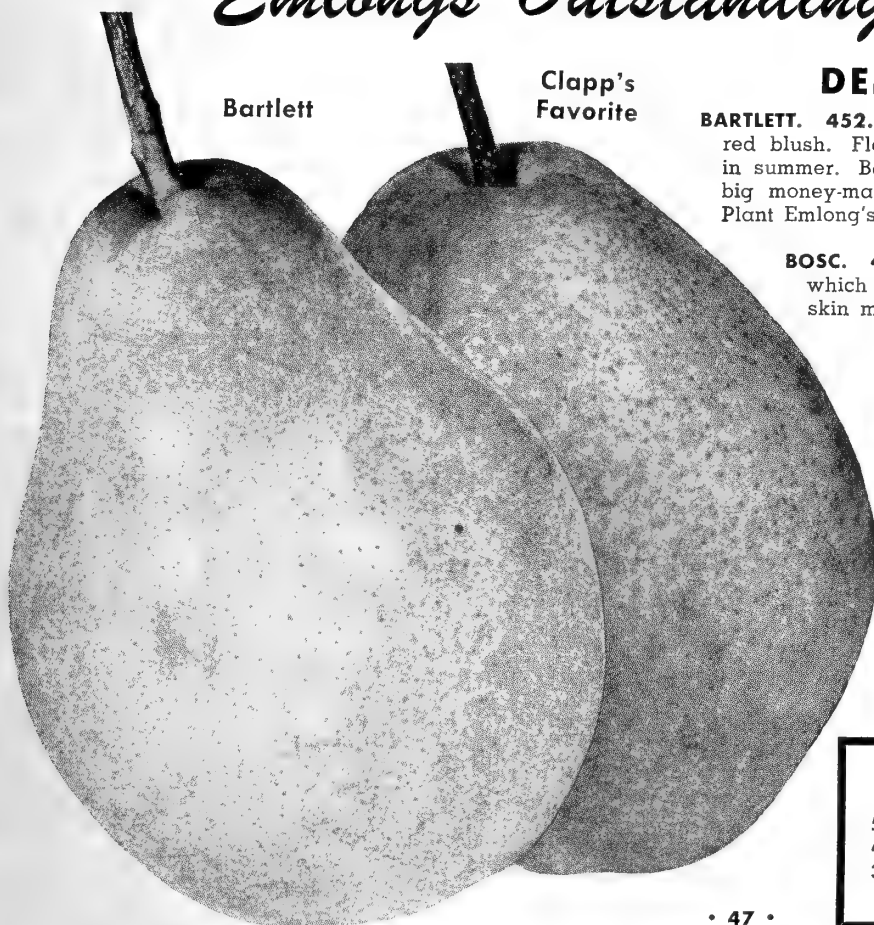

SECKEL. 460. Because of its sweet delicious flavor it is called the Sugar Pear. Fruit is small, but of the highest quality and especially favored for preserves. Ripens in late summer; bears young and heavily. Blight-resistant.

COPE'S SEEDLESS PEAR. 456. A superbly delicious, sweet, fine textured pear. Dependable later summer variety; ripens about 10 days after Bartlett. Especially desirable for canning and desserts. Trees are hardy, thrifty and heavy bearers. Self-pollenizing.

KING SIZE APPLE TREES

Huge 6-7 ft. Trees — Gain 2 Years

Just what you are looking for. These large sturdy trees will certainly bring you a crop of fruit before those of ordinary size. They are grown expertly and are worth much more than we are asking for them. They are at least 7 feet tall. **At bargain prices while they last.** Varieties: **Red McIntosh, Red Delicious, Red Jonathan.** \$3.00 each; 2 for \$5.75; 4 for \$10.95.

5-in-1 APPLE TREE

A Complete Apple Orchard

Five Leading Varieties On One Tree

612. Here is the opportunity for those with a limited amount of space to have five varieties of apples all on one tree—a miniature orchard in itself! Five kinds of apples that bear from summer through to winter, giving you a continuous supply of large, deliciously flavored apples for eating fresh, baking, pies, canning and every home purpose.

The trees are healthy, hardy and vigorous growing, and yield abundantly every year. Each tree is budded to the following varieties: **CORTLAND, RED DELICIOUS, RED JONATHAN, McINTOSH, YELLOW DELICIOUS.**

	Each	2	4
4-6 ft. trees.....	\$3.25	\$6.00	\$11.75

PLANT EMLONG'S Superior Northern Grown APPLE TREES

DOUBLE RED DELICIOUS. 306. Truly King of the winter eating Apples. Very fine solid red strain of Delicious, resembling its parent in all characteristics except color. Ripens in October. Excellent shipper and keeper. A big seller from coast to coast.

RED JONATHAN. 314. The favorite, large, red Jonathan so popular with commercial growers. Flavor makes fruit desirable for eating fresh and for cooking. Flesh is crisp, white and juicy. Trees bear young and are very productive and long lived.

YELLOW DELICIOUS. 308. Queen of the late fall eating Apples. Similar in shape and size to Red Delicious, but color is golden yellow. Flesh is firm, crisp and juicy and deliciously flavorful. The big, richly fragrant, golden fruits are considered the finest of yellow Apples. Keep exceptionally well all winter without becoming mealy. Our large fruiting strain bears young and abundantly.

TURLEY WINESAP. 322. The best keeper of the solid all-red winter Apples. Ripens earlier than other Winesaps; colors on the tree to a bright, rich all-over red. Fruit is large, uniform and firm; flesh has excellent flavor, crisp and juicy. In big demand for shipping, storage, for drying, cooking and eating fresh. A perfect all-around Apple. Trees are thrifty and hardy, produce big crops every year.

RED McINTOSH. 316. Emlong's large fruiting strain of McIntosh is a winner for flavor and quality. Bright red fruits of good size with white flesh. A fine juicy and highly aromatic Apple. Beautiful and a good seller. Heavy bearing, ripening in fall.

YELLOW TRANSPARENT. 324. (Lodi Improved Strain.) Always produces a big crop of tasty Apples for pies and cooking during summer. Hardy no matter how cold your winters. Thrives in all soils and **bears quickly.** A perfect pollinizer.

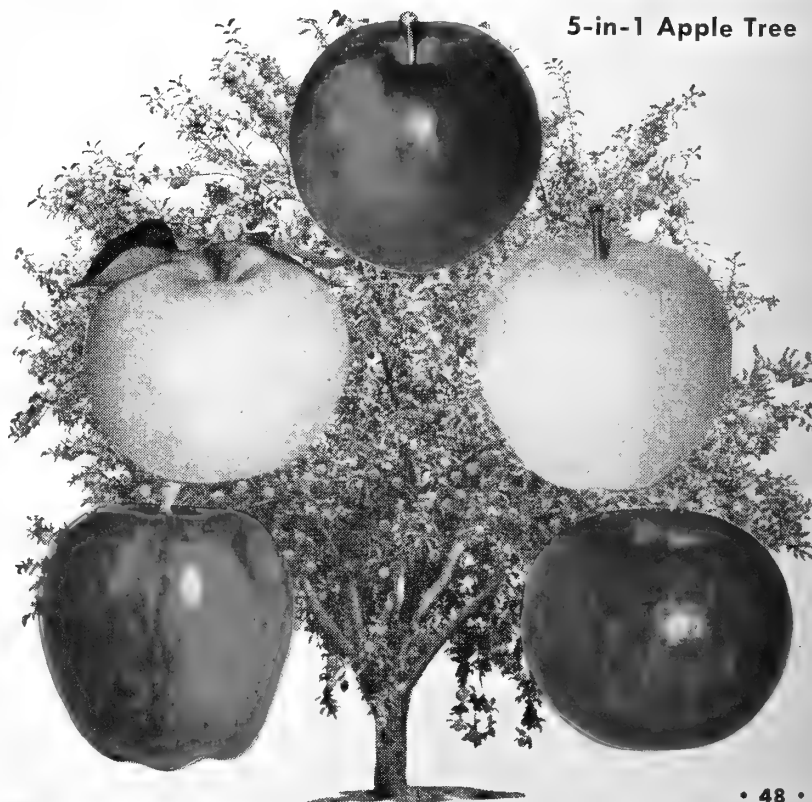

RED ROME BEAUTY. 320. An all-red strain of the old Rome Beauty. Highly prized for baking purposes. Trees are vigorous growing and yield heavy crops of large, evenly colored Apples that keep extremely well all winter.

5-in-1 Apple Tree

EMLONG'S / DELICIOUS

FENTON RED

New Extra-Early Red Apple

326. (Propagation rights reserved.) Here is a New Early all red apple, which ripens fully 2 weeks before McIntosh. The Fenton Red is very early and still has all the good features of the late Apples. Fenton Red was discovered by Mr. Harold Fenton of the Fenton Orchards, Michigan City, Indiana. Fenton is far superior to any early apple. It has excellent keeping qualities (known to keep until late December in an ordinary refrigerator.) The attractive fruit is large and uniform in shape.

Delicious, juicy, white flesh tinged with red, Fenton Red is an apple with many uses; ideal for eating fresh, pies, sauce and canning. It is equally suited for the backyard gardener, as well as the commercial fruit grower. Its habit of producing a crop in a short time is another of its good features. Supply is limited, order early.

FENTON RED Prices:

	Each	2	5	10
4-6 ft. Trees	\$2.75	\$5.25	\$11.95	\$21.95
3-4 ft. Trees	2.25	4.25	9.95	19.95

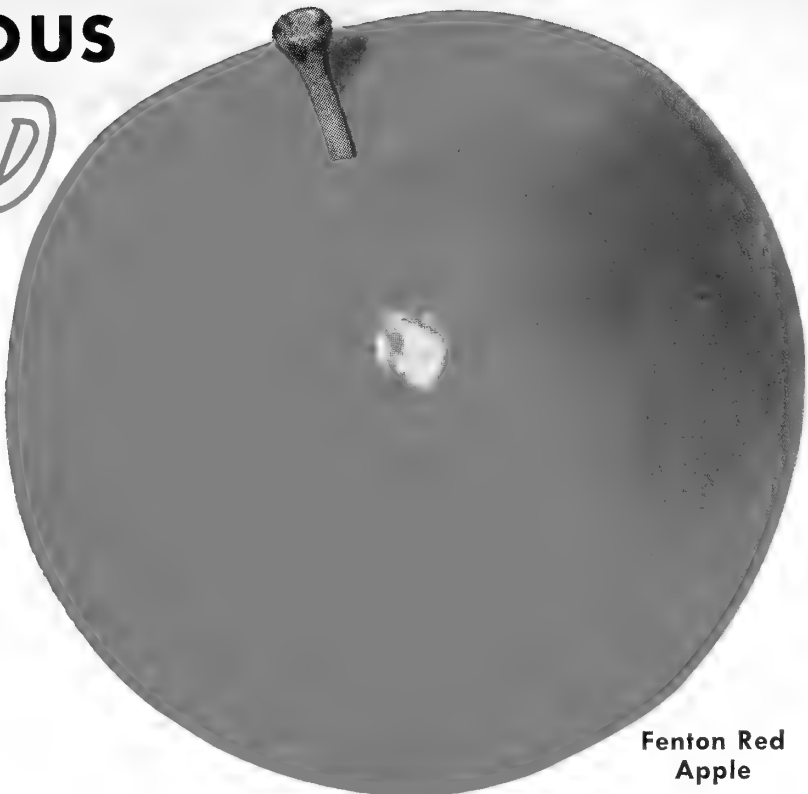

Commercial Orchardist, please write for our special quantity prices.

ANOKA. 302. Quickest to Bear. No long waiting for fruit. Anoka ripens in midsummer and usually starts bearing the year after trees are set out. Medium sized, greenish red fruit. Excellent to eat fresh and makes wonderful pies and applesauce. Hardy everywhere; thrives on poorest soils. Excellent pollinizer.

RED NORTHERN SPY. 318. Dressed up in its new bright skin, the old hardy favorite retains its famous quality and flavor. Large fruit, firm flesh and skin; it keeps wonderfully well in storage. Very much a favorite for drying, baking, cooking, pies and freezing.

RUBY. 328. New, promising Winter apple; strikingly brilliant over-all carmine-red color. As a dessert apple the flavor is good, surpassing that of Gallia Beauty. Flesh is juicy and pleasantly mild in flavor.

MONROE. 330. New! Fruit is large and bright red. Flesh is crisp, juicy and mildly sub-acid; very good quality Winter apple. Excellent for dessert and culinary use.

ASPARAGUS EASY TO GROW GOOD FOR YOU

One planting of Asparagus lasts many years. Requires little care. Asparagus is always ready to sell early in the spring before other vegetables are ripe and always brings a good price. Emlong's home-grown roots are bright colored and of large caliber. **Plant them during March, April and May.**

PARADISE. 852. The new giant strain of Asparagus from California. Makes long, thick, very tender stalks. Grows quickly. Said to bear usable tips a year sooner than other kinds. Paradise retains its color when canned or frozen. Very profitable and very dependable for home or market. Rust resistant and very productive. A hundred roots will supply the average family for many years. Plant the same as Washington.

WASHINGTON. 854. Introduced by the U. S. Department of Agriculture, this has long been the leading commercial Asparagus. Produces large, tender, green tips. Mild, rich full flavor, very delicious. In great demand for shipping, canning and freezing. Plant the roots 12 inches apart in the garden. In the field rows can be 4 feet apart. 5000 roots plant an acre.

Chestnut

CHINESE CHESTNUT

Mammoth Size — Blight Resistant

908. Wonderful new strain. Proven highly blight resistant in this country. Extremely hardy and vigorous. Trees are rapid growing, quick to bear and very heavy yielders. Trees produce nuts of fine flavor, sweet and are larger than those produced on the ordinary American variety. The meaty nutritious nuts are a favorite of everyone; always in demand for baking, confections and eating during the winter holidays. Trees grow about the size of an apple tree and are very decorative for lawn, providing good shade besides yielding an abundant crop of nuts each year. Bear young. Will thrive in any well-drained soil and require very little care once they are set out. For a profitable crop of nuts as well as beauty and shade, we recommend planting a few trees. Plant 2 trees for best results.

Red Rich

New RED RICH EVERBEARING STRAWBERRY

225. You've never seen plants so BIG and so VIGOROUS, or berries so RICH in bright RED color clear through to the core! Flavor? Ummm! One bite will convince you New RED RICH is the sweetest berry grown! Developed in Minnesota, this wonderful berry is the result of a cross between Wayzata and Fairfax. It combines the best qualities of both — big, firm berries and wonderful honey-sweet flavor, that made Wayzata famous; coupled with thrifty growth, heavy yield and the good plant-making ability of Fairfax.

BEARS ALL SUMMER

RED RICH ripens its first berries in June and keeps right on giving you heavy yields all summer, right through to fall. Luscious, big berries with a firmness clear through that holds up exceptionally well in storage or shipping. They are unsurpassed for freezing; have such an abundance of natural sugar, none need be added; remain firm-textured and won't mush-up when thawed.

Each Red Rich plant shipment carries new "Space System" planting instructions. Follow these carefully; you'll be delighted with the results. Commercial growers and home gardeners alike can profit by planting Red Rich. Supply is limited — order yours today.

"BRILLIANT"
Plant Patent
No. 1183

EVERBEARING STRAWBERRY

EXCELS IN GROWING, BEARING

AND TASTE TEMPTING FEATURES

210. Everbearing Champion! Brilliant has won all records for BIG YIELD and PERFECT BERRIES. In tests with other everbearing varieties Brilliant produced 7000 quarts per acre; 2000 more quarts than any other variety.

True Everbearer! Brilliant is the only everbearer that keeps fruiting steadily all summer and fall. It is a 100% perfect pollinizer; matures to full size, uniform shape and even color.

Quickest Berry Maker! Brilliant plants are so thrifty and vigorous that, unlike other everbearers, the very first blossoms can be left on to bring you perfect berries just a few weeks after the plants are set out.

Brilliant Has Stood Every Test! Where many varieties fall due to droughts or excessive rains, Brilliant will thrive and produce its equal enormous load of top quality berries. Perfectly hardy, Brilliant does equally well on thin sandy soil, heavy clay or raw muck.

Big Money-Maker! Matchless quality and flavor make Brilliant a leading money-maker for commercial growers. The luscious, brilliant red berries are always in demand and bring top prices on the market. The rich, tangy flavor is outstanding; flesh is firm, solid and red clear through. Home gardeners, too, can profit by planting Brilliant this spring. Order your plants now.

VIRUS FREE Strawberry Plants

ROBINSON and CATSKILL, are the only two varieties certified as Virus Free, by the Michigan Department of Agriculture which began the program in 1950. Completely healthy plants, selected from hundreds of samples, were propagated in strict isolation at the university farms. The resulting virus-free stock was then released to Michigan nurserymen who agreed to further propagate this stock under restricted conditions and definite cultural practices to maintain the virus-free characteristics. You as the grower planting these virus-free

plants, need not be concerned with isolating them. Spraying and weed control, however, are good practices and should be carried on diligently in any strawberry planting.

What This Means to You — The Grower

Larger, Healthier Plants: Tests proved that virus-free plants produced three times as many runner plants, and more vigorous plants.

Larger Yields: Tests also proved there was a 30 to 50 percent increase in yields. Virus-free plants are the most profitable to grow!

Stops Transplanting Losses: Virus-free strawberry plants grow more readily and will transplant without serious losses.

Rigid Inspections: Our plants are grown under strict inspection by both Mich. State Dept. of Agriculture and Michigan State University.

Famous ROBINSON Best Late

270. One of the largest berries grown; 30 berries will fill a quart! Flavor is honey sweet. Berries are bright red, conical in shape and well colored to the center. Flesh is firm-textured and solid; excellent for canning and freezing. The plant is very hardy and prolific; makes a good fruiting row on any soil; does well in the North. Ripens about two weeks after Premier. Bears heavily over a long period. Robinson is a berry well worth trying!

Vigorous CATSKILL

Excellent for Freezing

240. One of the best midseason to late varieties. Catskill is a cross between Premier and Marshall. It is a sure cropper; rarely ever freezes. The plant is thrifty and vigorous, can be depended upon for enormous crops of large, choice berries. The fruit is bright, shiny red and holds the color well. Flavor is deliciously sweet; perfect for fancy desserts and freezing.

Premier EARLY →

The Dependable Strawberry

265. The best selling Strawberry from coast to coast. It is one of, if not the earliest berry to bear, yet resisting frost. The picking is best before other commercial varieties come into bearing, thus bringing "first-of-the-season" high prices. Plants are thrifty, vigorous growers and make a good fruiting row. The foliage is tough and unusually healthy. Blooms are covered and protected from frost by the foliage. Premier starts to ripen early and continues bearing heavily for a long period.

Berries are uniformly large; long, pointed in shape and bright scarlet-red; have a super-delicious flavor. Its deep heavy roots enable Premier to withstand dry weather and mature full size crops when many other varieties are a failure. Can be trucked long distances and still look fresh, bright and very appetizing. Wonderful for fancy dessert and canning. Perfectly self-pollenizing; drought-resistant. **Set plants in April and May. They will bear next year.**

Kardinal King

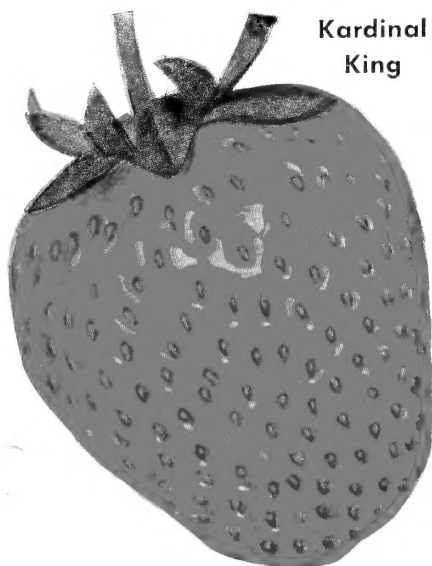

260. An outstanding variety that is sweeping the country. Kardinal King has created something of a sensation with its record breaking crops. The best late Strawberry. It starts to bear after Premier and continues through the late berry season, prolonging your berry profits. The plants grow large, making wide fruiting rows and producing record breaking crops. The fruits are large, solid red, luscious and full of good flavor. A full-flavored, richly sweet and juicy berry favored for table use, jams, jellies, and freezing. Also praised for its high shipping quality. They retain their quality long after being picked and may be shipped long distances without harm. Thrifty, strong, hardy grower. The foliage is dark and is free from leaf troubles; will thrive and produce a crop of berries even on rather poor soil. Give Kardinal King a trial and be convinced of its superior qualities as the perfect variety both for home and commercial use.

Jumbo THE LARGEST STRAWBERRY GROWN

255. This exceedingly vigorous grower produces large quantities of berries which are extra large and the flavor is mild and sweet. Plants are strong, vigorous and very healthy; makes an excellent fruiting row. Berries are a very dark red. Berries may be picked when they reach the color of Premier, or allowed to remain on the plant until completely ripe. Not quite as early as Premier. Proven to be one of the heaviest yielding strawberries known and also a good plant maker. Due to its firmness and color, Jumbo is a very good shipper; keeps exceptionally well.

RICHLY FLAVORED OLD FAVORITE

245. Dependable midseason to late Strawberry which stands coldest and warmest climates and poorest soils. Plants are medium in size, long rooted, extremely vigorous, free from disease, and will make more plants than any other variety grown in the midwest. Plants make a solid fruiting row, and bear medium size, very dark red berries that are honey-sweet. Richest flavored in the Strawberry family. Favored for preserving, jam, jelly, etc. Self-pollenizing. Very productive.

Superfection

A LEADING EVERBEARER

230. In just 12 weeks after planting you will get big, juicy, richly flavored red berries from your Superfection plants. Berries are firm, do not discolor after picking, and keep exceptionally well. Superfection is a very thrifty strawberry plant. Tested on leading types of soil it has proven to be rugged and hardy in Northern Michigan. Withstands adverse weather conditions and requires no special care. Plants set in April or May have ripe berries by August **this** year. Don't delay, order your plants today.

CRIMSON KING maple

KING OF THE ORNAMENTAL TREES

(Plant Pat. No. 735) 1208. Truly the best Red Maple grown.

In the spring the foliage is a rich deep purple-red which is carried through the entire season. Unquestionably, Crimson King is a superb tree for single specimens, for tree lawns, along driveways, and every landscape purpose. Fine for city planting; not harmed by smoke, gases, dust. A sport of the well-known Norway Maple; has similar habit of growth. Crimson King is a magnificent specimen tree for large or small gardens. Very hardy; will live for generations, becoming more beautiful each passing year. The trees we send are one-year tops and three-year roots. They start branching the first season.

FLOWERING DOGWOOD

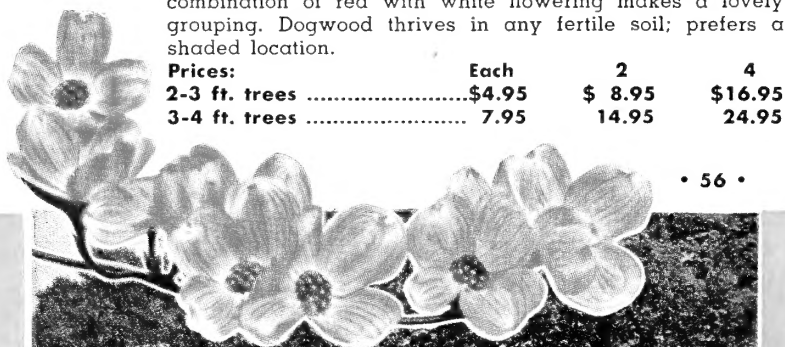

A Vision of Loveliness in All Seasons

RED FLOWERING

CHEROKEE CHIEF

1265. A sensational new Red Dogwood. Outstanding for its beauty and earliness of bloom. Beautiful rose-red blossoms cover the tree in early spring, followed by attractive dark green foliage which changes to gorgeous reds in the fall. Bears clusters of bright red fruit in September and October. The spreading branches grow horizontally and slightly upward from the trunk. Grows 8 to 10 feet tall. This variety makes a beautiful lawn specimen and is equally effective in border planting. A combination of red with white flowering makes a lovely grouping. Dogwood thrives in any fertile soil; prefers a shaded location.

PINK FLOWERING

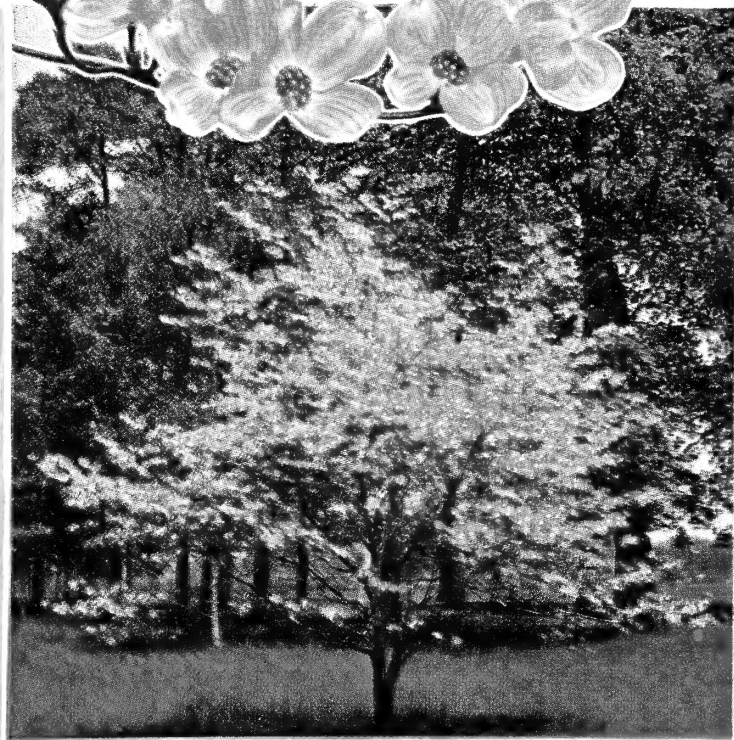

1266. *Cornus Florida Rubra*. This charming, brilliant spring-flowering tree possesses a large measure of attractiveness throughout the entire year. A tree in full bloom is a magnificent sight. Showy pink blossoms appear in early spring followed by rich, dark green foliage changing to gorgeous red in fall. Grows 8 to 10 feet tall. Does well in shade.

3-4 ft.	4.95	9.50	17.50

WHITE FLOWERING

1268. *Cornus Florida*. Immense amounts of single flowers of creamy white which change to white cover the tree in early spring followed by red fruits. Foliage turns red in fall. One of the most delicate-appearing of all our native trees and a splendid specimen tree. When in bloom, the tree is literally a billowing cloud. 8 to 10 feet.
